ABOUT JK TYRE & INDUSTRIES LTD.

JK Tyre, part of the JK Organisation, is among India's leading tyre manufacturers and among the top 25 tyre manufacturers in the world. The company offers a wide range of products catering to diverse business segments in the automobile industry. The company operates 12 plants, including nine in India and three in Mexico. Currently, the total capacity of all its plants together is around 32 million tyres per annum. It is listed on major stock exchanges in India and provides direct and indirect employment to nearly 300,000 people. JK Tyre is the only Indian tyre manufacturer to be included in the list of Superbrands India in 2017 for the sixth consecutive year.

TYRES DO NOT JUST MOVE VEHICLES, THEY ARE THE DRIVING FORCE BEHIND A PROGRESSIVE ECONOMY.

India is already the fourth largest automobile market in the world, backed by rapid urbanisation, improved economic parameters and increased consumer spending. The industry is at an inflection point with rapid evolution of technology, newer laws and more globally-aligned emission norms, leading to a fast-growing market for everything related to mobility.

At JK Tyre, we are cognisant of these trends and are fortifying our business and recalibrating our strategy to leverage these positive trends. We feel gratified that as envisaged by us in 1999, the radialisation of the truck/bus segment has moved rapidly and today, with the evolution of technology, 47% of this segment in India is radialised. There is a definite push towards making mobility greener, safer and more sustainable, and tyres have a significant role to play in it. This is why, we are consistently investing in augmenting our capacities across segments and strengthening our market linkages.

Despite the temporary headwinds in the form of high raw material costs, ban on non BS IV vehicles and destocking by dealers

due to the introduction of the Goods and Services Tax (GST), we continued to remain steadfast in our belief that what we have created is sustainable and value accretive for the long-term. During the year, we focused on improving efficiencies, growing capacities, launching new products, expanding our global reach and enhancing our brand recall. We have demonstrated the strength of our business model and an indefatigable spirit to focus on the future.

**We are driven by a new energy and conviction.
We are driven by a belief in our products and market presence.
We are driven by tomorrow.**

ABOUT US

YOUR COMPANION ON ROAD

Our mission

- Be a Customer Obsessed Company– Customer First 24x7
- No. 1 Tyre Brand in India
- Most profitable Tyre Company in India
- Motivated and Committed team for excellence in performance
- Be a Green Company
- Deliver Enhanced Value to all the stakeholders
- Enhance global presence through Acquisition / JV / Strategic Partnerships

Our brand suite

JK Tyre has an extensive portfolio of brands, catering to multiple segments:

'JK Tyre' is the flagship premium brand of tyres catering to the Truck Bus Radial (TBR), Truck Bus Bias (TBB), Small Commercial Vehicle (SCV), Light Commercial Vehicle (LCV), Farm Vehicle and Passenger Car Radial (PCR) segments, both in India and overseas. The brand also caters to Off the Road (OTR) and two- and three-wheeler segments in India.

'Vikrant' is the mid-range tyre brand catering to the TBR and TBB segments in India and overseas.

'Tornel' is the economy range of tyres catering to the TBB and PCR segments in the international market.

'Challenger' is the newly launched economy range of tyres catering to the TBR, TBB, PCR and two- and three-wheeler segments in India.

Our core values

- Caring for people
- Integrity, including intellectual honesty, openness, fairness and trust
- Commitment to excellence

Our acquisitions

VIKRANT

Vikrant Tyres, acquired from Government of Karnataka in 1997 has grown multifold over the years. Its capacity has grown from 100 to nearly 400 Tonnes per day and turnover has grown over six times. Today with three manufacturing plants, it is the largest manufacturing facility in Mysore and contributes significantly to the local economy and surrounding areas. Important milestone in the journey of Vikrant has been the roll out of 10 million truck / bus radial tyre becoming the first and only Indian tyre manufacturer to do so.

TORNEL

In 2008, we acquired Tornel, a tyre company with three manufacturing plants in Mexico (Azcapotzalco, Tultitlan and Hidalgo), with a combined annual capacity of 7.9 million tyres. In the first year of acquisition, we turned around the operations, improved plant efficiencies and enhanced market share across all products. This acquisition enabled us to widen our global footprint through free access to the North American Free Trade Agreement (NAFTA) and other trade blocks. It also gave us greater access to North America and the emerging Latin America markets, where we already had a substantial presence.

Our Original Equipment Manufacturer (OEM) partners

Our constant endeavour to serve our customers has made us the preferred partner to leading automotive OEMs such as:

Maruti Suzuki	Tata Motors	Honda	Ashok Leyland	Mahindra & Mahindra	Volvo
Eicher	General Motors	Volkswagen	Force	Bajaj	Renault
Swaraj Mazda	Fiat	Nissan	TAFE	BEML	Caterpillar India
JCB	John Deere				

CAVENDISH

In 2016, we acquired Cavendish Industries Ltd. (CIL), a tyre company that was a part of Birla Tyres. It has three state-of-the-art plants located at Laksar (Haridwar), with an annual capacity of 8.5 million tyres. The plant is in an excise benefit zone, with excise exemption of 10 years (up to 2020). This acquisition enabled us to further consolidate Cavendish's leadership position in the TBR segment and mark our foray into the two- and three-wheeler tyre categories. We achieved operational turnaround in the first year of acquisition. We also launched Blaze, premium two-/three-wheeler tyres, which were well received in the market. The demand for this range of tyres is growing exponentially each month.

- Our manufacturing facilities are certified for Total Productive Maintenance (TPM) by ISO/TS 16949, ISO 14001, OHSAS 18001 and ISO 50001 (Energy Management System).
- We have also been accredited by SA 8000 for social accountability, ISO 27001 for our information security management system and laboratory management system and ISO 17025 for our tyre testing laboratory.

CHAIRMAN AND MD'S MESSAGE

BUILDING A FUTURE-READY BUSINESS

Dear Shareholders,

The year gone by has been a year of halves. We began the year with high raw material costs, spillover effects of demonetisation and the ban on sale of non-BS IV vehicles from 1st April 2017. This impacted our sales as on one hand, CV demand fell significantly and on the other hand, the business environment did not permit price revision to pass on the burden of high input costs.

The disruption caused in the transitional phase of the Goods and Services Tax (GST) could only ease out in the second half of FY 2017-18, which, along with the softening of raw material prices, benefited the industry. This period also witnessed a revival of demand from the CV manufacturers, which, along with the Government's imposition of anti dumping duty on

cheap TBR imports, provided tailwinds to the business.

At JK Tyre, we have always pursued a strategy with an eye on the future. Despite the external challenges, we improved our sales volume by recording an impressive 11% growth in FY 2017-18, higher than the industry at large. By adopting differentiated strategies, JK Tyre could increase its market presence across the categories, thereby further strengthening its brand presence in the market.

Reinventing ourselves on a consistent basis is ingrained in our business process. We revisited our internal efficiencies and delivery systems across the business to become future ready. We undertook our first-ever labour restructuring programme at JK Tormel, Mexico, by streamlining our workforce and performance parameters, which have reduced our manpower cost by a third. This step itself will bring in rich dividends in the coming period and will add to our overall profitability.

"Despite the external challenges, we improved our sales volume by recording an impressive 11% growth in FY 2017-18, higher than the industry at large."

"Reinventing ourselves on a consistent basis is ingrained in our business process. We revisited our internal efficiencies and delivery systems across the business to become future ready."

Our strategic initiatives on sustainability are fructifying, as result of which 37% of our power requirements are now met from renewable energy sources, both wind and solar. Our water consumption levels are global benchmarks. Thus, today, we are placed among the top four energy-efficient tyre manufacturers in the world.

Leveraging on our futuristic thinking, we launched new products, took steps to digitalise our processes across the value chain and reinforced our focus on premiumisation of the portfolio.

After our acquisition, Cavendish Industries Ltd (CIL) saw the first full year of operations in FY 2017-18 and has been performing well. The acquisition marked our entry into the two and three-wheeler segments. I am happy to share that during the year, several two-wheeler makers expressed interest in our tyres and we are confident of expanding our reach in this segment in the coming year.

Moreover, the takeover of CIL further strengthened our market leadership in the growing TBR segment. The truck/bus radialisation, which we had pioneered in 1999, increased to 47% during FY 2017-18. We are expanding our TBR capacity at CIL to meet the rising demand for JK Tyres in this category.

Emerging technologies are modifying the automotive space. At JK Tyre, we believe in remaining ahead of the curve; hence, we are readying our products for the new era in mobility, to be future ready. To give further boost to our R&D endeavours, we have recently set up the Raghupati Singhania Center of Excellence (RPSCOE) at Mysuru. This R&D Centre is equipped with advanced testing and evaluation infrastructure. It is engaged in developing global-level tyres that are fit for future and at the same time, in line with our mission to be 'Customer Obsessed' and a 'Green' company.

We believe in investing in people development and have built internal pipelines of talent, which enable us to deliver superior and distinct values to our customers. Team JK Tyre's dedicated efforts and commitment have established us as one of India's most trusted tyre brands.

Our inherent value systems drive our commitment towards the society. We have touched the lives of more than 1,20,000 people in one way or the other, through our Corporate Social Responsibility (CSR) initiatives focused on the areas of healthcare, education, livelihood enhancement and environment.

Motorsport has been an integral part of JK Tyre. FY 2017-18 was a landmark year with JK Tyre FMSCI National Racing Championship completing 20 years. We have been very active in the motorsport segment as it reinforces our brand positioning of youthfulness, technology leadership and adventure.

The recent structural reforms have put India on a growth momentum, making it the world's 6th largest economy. It has opened up a plethora of opportunities for businesses to grow and also contribute towards national progress.

I would like to mention that the automotive industry is keeping pace with the economic growth and this augurs well for the tyre industry. At JK Tyre, we are committed to growth, driven by our brand strength, manufacturing prowess and continuous innovation. We are future-ready to cater to the tyre demand that has the potential to increase sharply in the coming years. We remain committed to enhance shareholder value as we keep making progress in our endeavours.

JK TYRE FIRSTS

PROUD OF OUR MANY FIRSTS

1

Technology

- First tyre company in India to install the 'On-level Tyre Test Machine', generating real-time data in tyre testing
- First tyre company in India to install an anechoic chamber for noise measurement
- First Indian tyre company to launch an eco-friendly 'green' tyre

2

Knowledge

First tyre company in India to commission an independent Research and Development (R&D) centre - 'Hari Shankar Singhania Elastomer & Tyre Research Institute' (HASETRI) - a one-of-its-kind modern R&D centre recognised under Scientific and Industrial Research Organisation (SIRO) by the Department of Scientific and Industrial Research (DSIR), Government of India

3

Original Equipment (OE) relationships

First Indian tyre company selected by Suzuki Motor Corporation to work on its Swift model, right from the drawing board

4

Certification

- First tyre company in Asia to receive the ISO 50001 certification for Energy Management and second in the world
- First Indian tyre company to have verified carbon footprint as per ISO 14064

5

Product

- First tyre company in India to launch radial technology for the entire range (Passenger Car, LCV, Bus, Truck and Tractor)
- First company in India with OE fitment of tubeless passenger radials
- First tyre company in India to launch high-performance H-, V- and Z-rated passenger radial tyres

6

Overseas

- First tyre company in Mexico to manufacture collapsible spare tyre and temp tyre
- First tyre company in Mexico to supply OE tyres to Nissan/Chrysler

OUR STRENGTHS

Our intricate business model is focussed on creating long-term value for stakeholders and is driven by our core strengths.

Experience

36+ years

We have over 36 years of time-honoured rich experience in the global tyre industry.

Leadership

No. 1

We enjoy leadership in Truck Bus Radial (TBR) tyre.

Presence

100+

We have a global presence in over 100 countries across six continents.

Assets

12 plants

We have 12 modern plants – nine in India and three in Mexico.

Scale

32 mn tyres/annum

We have a capacity of around 32 million tyres per annum across all our plants.

Position

22nd

We are ranked as the 22nd largest tyre manufacturing company globally.

Products

2,000+

We have over 2,000 Stock Keeping Unit (SKU) products across all categories.

Range

2.1 to 3.5 tonne

We offer tyres starting from a 2.1 kg two-wheeler tyre to a 3.5 tonne OTR tyre.

Touch points

4,000+

We have a countrywide network of over 4,000 dealers (300+ JK Steel Wheels, 60+ JK Xpress Wheels, 40 JK Truck Wheels and 28 JK Retread Centres).

CAPEX

₹4,850_{crore}

We deployed a Capex of ₹ 4,837 crore outlay in the last five years, preceding 2017-18 (including the acquisition of CIL).

Partners

75+

We work with over 75 OEM partners in India and Mexico.

Energy efficient

10.1_{Gj/tonne}

We are among the top four energy-efficient tyre companies in the world (10.1 Gj/tonne).

Water consumption

2.42_{cu.m/tonne}

We are one of the world's lowest consumers of water per tonne of tyre manufactured (2.42 cu.m/tonne).

Shareholder return

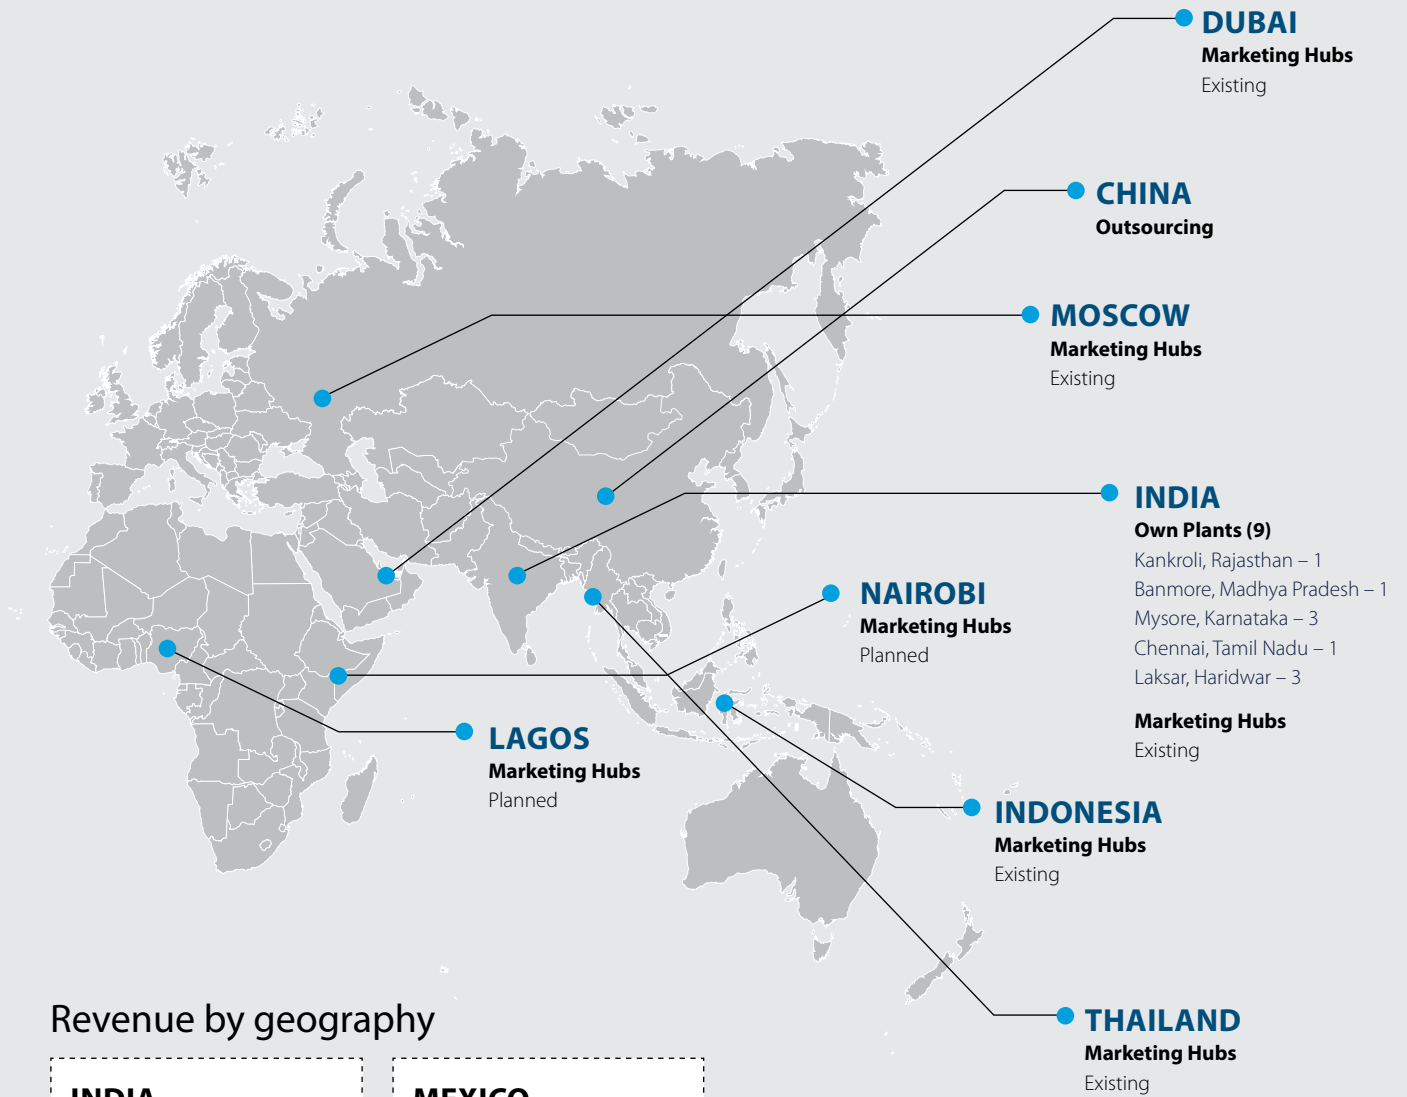

50%_{CAGR}

We have consistently rewarded our shareholders with 50% CAGR in market capitalisation during the last five years.

The automotive industry will be faced with several challenges due to modernisation and digitalisation. However, we, at JK Tyre, are in 'Total Control' and future driven through our:

- Robust operational canvas
- Relentless focus on innovation
- Reinforced brand recall
- Enhanced global presence
- Empowered team

7

ROBUST OPERATIONAL CANVAS

With the emergence of Industry 4.0, the manufacturing and supply chain landscape is going through a dramatic shift. Interoperability, information transparency, technical assistance and decentralised decision making are becoming the key drivers for operational excellence. At JK Tyre, we believe in futuristic thinking and have been embracing new technologies in our operations at a steady pace.

AUTOMATION

We have undertaken low-cost automation at various levels of manufacturing and supply chain to derive operational excellence. While we are equipping our manufacturing units to be smarter and leaner, we are also realigning our warehouse to make them hi-tech and future ready.

We are paying significant attention to predictive and preventive maintenance to avert major failures. Our production planning system is SAP-enabled for better efficiency. To ensure smooth functioning of our export operations, we have opened new SAP-enabled depots at Mumbai, Chennai and Kolkata. We are continuously upgrading our systems with the latest technology.

It is our belief that a company's workforce should play an intrinsic role in process improvement. In this line, we constantly encourage and empower our people and are proud to state that over 30 teams across plants participated in various Quality Circle competitions and came out with flying colours.

GST-LED EFFICIENCIES

Our aim is to seamlessly work towards achieving better results at each level and keep costs under control. In this regard, we have realigned our feeder godowns or stocking points as per the GST provisions. We are also aligning our efforts to use larger warehouses and distribution networks to provide services at lower costs. We are also gradually streamlining the OE order fulfilment and material flow processes in accordance with the GST provisions.

GREEN EFFICIENCIES

At JK Tyre, we believe in using multiple approaches to conquer a challenge. It is this mindset that drives us in pursuit of efficiency and excellence. While launching futuristic tyres is our mission, making processes cleaner is integral to our business.

Today, 37% of our power requirements are met by renewable energy sources, including wind and solar. JK Tyre is one of the few companies that has the lowest consumption of energy per tonne of tyres manufactured in the world. Our water consumption levels are also as low as 2.42 litres per kg. Our efforts to curb our Greenhouse Gas (GHG) generation and contribute to a better climate have resulted in a 27% reduction in specific eCO₂.

In addition, we are focusing on strengthening our Reduce-Recycle-Reuse (RRR) philosophy and have achieved the lowest ever plant waste. To further our efficiencies, we have set up teams across our plants for cross-learning in the fields of energy and waste management.

PROCESS EFFICIENCIES

We have been on a constant endeavour to achieve improved process excellence.

Our processes contribute to better output on the back of smart manufacturing, value engineering and digitalisation. We have been implementing automation and IoT on the shop floors and other key areas for better capacity utilisation and optimised use of resources.

RECOGNITIONS

We are proud to share that one of our plants have received TPM Consistency Certification from JIPM Japan, which has motivated us to achieve the highest level of quality consistency and robust operations.

OUTLOOK

Our endeavour is to further increase our dependency on renewable sources in the coming years and also improve our efforts of waste reduction and technology enhancement.

RELENTLESS FOCUS ON INNOVATION

The automotive industry is witnessing a game-changing phase. Be it electrification or shared mobility, tyres have a key role to play in many areas of technological progress. These technological advancements and their integration into tyres are leading the future innovations in the industry.

Today, tyre technology and innovation are defined by a smart, connected and efficient design/development ecosystem. Therefore, we have been engaging rich technological expertise and processes to create tyres for the future.

EXCELLING IN R&D

Raghupati Singhania Centre of Excellence, Mysuru, Karnataka

The state-of-the-art R&D centre at Mysuru – Raghupati Singhania Centre of Excellence (RPSCOE) – is a step towards creating a global hub for R&D. Spread across 10,000 sq. mts, the R&D centre houses two of our most advanced tyre technology entities:

- **'Hari Shankar Singhania Elastomer & Tyre Research Institute' (HASTERI):** HASTERI is an independent research institute established to fulfil India's need for developing newer and better technologies for elastomer and tyres.
- **'JK Tyre Tech Centre':** This product development centre caters to the current and emerging needs of customers. The Centre is engaged in product design, development, validation and industrialisation using the most sophisticated tools and techniques covering categories such as passenger car radial, light truck radial, light truck bias, TBR, farm and OTR tyres.

RPSCOE for Tyre and Vehicle Mechanics

This centre is a perfect example of an industry-institute collaboration. It is an R&D centre set up in collaboration with Indian Institute of Technology (IIT), Madras.

We are India's first company to install an anechoic chamber to monitor Noise, Vibration and Harshness (NVH) at the centre.

At JK Tyre, we focus on advanced and alternate materials, nano technology, process and product simulation, predictive technology, advanced tyre mechanics, tyre characterisation, optimisation of raw material consumption and recyclable resources and their efficient usage.

Global GHG emissions are on the rise and there is a dire need to curb them. As a responsible tyre manufacturer, we are working towards developing tyres with reduced rolling resistance and traction (wet and dry), without affecting the mileage. We are thus contributing in reducing GHG emissions.

Category-driven technology plan

We have crafted strategic technology plans for each unique category of tyre. A pioneer in radial technology in India, we have been enhancing our reach to OEMs with a wider range of products, expanding to newer vehicle segments and markets. We have also drawn up plans to adapt to the changes brought about by electric mobility and other future technologies.

Compliance to global regulations

To realise our innovation expertise, we have been in the pursuit of certifying our products of global standards. With the recent compliances to global certification and subsequent country-specific developments, we have a strong product offering for every continent. Our products meet all the stringent performance requirements by the US, Europe, Gulf

Cooperation Council (GCC), Brazil, Russia and other countries. Some of our key certifications are:

- Nom Certification, China
- SNI Certification, Indonesia
- INMETRO Certification, Brazil
- GCC Standardization Organization, GCC
- Department of Transportation, USA
- Saudi Standards, Metrology and Quality Organization, Saudi Arabia
- The complete product range of TBR and PLT complies with the requirement of ECE R117

OUTLOOK

Since inception, we are strongly committed to a comprehensive technology growth. To strengthen our technological know-how, we have harboured an inhouse talent pool and also aspire to engage global technology expats. We aim to be a global tyre maker driven by pure technology excellence as we make our products future-ready.

- Application of connected enterprise for process excellence.
- Focused approach towards zero defects.
- Enhanced automation and robotisation for quality consistency.
- Focused energy conservation to be world-class.
- Skill development through continuous training for quality excellence.
- Global benchmarking to achieve best-in-class process control parameters.

Key product launches

- 'Jetway JUH5', an unbeatable range of Rib Tyres in India, is performing extremely well in the market place.
- 'Jet Racing', a truck radial tyre, which has been commended for its top speed of 164 km per hour, has been approved for the British Truck Racing Championship.
- Tyre of Bajaj Platina Comfortec offers one of the lowest rolling resistance in the two / three-wheeler segment.
- Shresth is an innovative design technology in farm tyre – patented by Design Centre. The tyre ensures higher traction, maximum hourage, dual application, biggest dimensions and aesthetics.
- Special premium 'white-lettered' tyres were launched under the Ranger brand for SUV tyres, which have been appreciated by customers.
- The 'Taxi Max' range was introduced with a promise of 1 lakh+ km mileage, backed by an unconditional warranty.
- The flagship two-wheeler product 'Blaze Rydr' was launched for high-end, high-speed motorcycles.

REINFORCED BRAND RECALL

At JK Tyre, we do not just sell tyres, we build legacies. With our extensive distribution and service network, we are the consistent companion of our customers on road. As a brand, we are committed to be an end-to-end global tyre solutions expert.

DIGITAL

Today, digital marketing is emerging as a strong pillar for building conversations, engaging customers and driving preference, loyalty and a stronger equity for us. In our efforts to be one of the most prominent brands on the digital medium, we have been expanding our social presence and engagement with target audiences through innovative digital activations.

RADIO

Radio is a very effective medium for us to promote newer schemes and build brand awareness. 'Radio Khushhaali' is a unique initiative by JK Tyre to reach out to the farmers of Rajasthan, Uttar Pradesh, Haryana, Maharashtra, Punjab, Bihar and Madhya Pradesh through humourous and entertaining content. This first-of-its-kind initiative in the Indian tyre industry has helped us reach out to the farmers in an innovative way and improve our brand image among them.

CAMPAIGNS

'Ab se tyres main sirf JK is OK' is one of our high-visibility campaigns for the two-wheeler category, which has been well received by the trader community and customers. Our campaigns for the PCR tyre category have also received substantial brand visibility, with high efficacy.

To build awareness among the mechanics, we also rolled out the '2 Wheeler ka Don' van campaign across India in a phased manner. The idea was to connect with the mechanics and teach them puncture-repair techniques and showcase the two-wheeler range.

DISTRIBUTION NETWORK

We have a strong distribution and service network in India and overseas. We also have a strong pan-India distribution network of over 4,000 channel partners.

JK TYRE TRUCK WHEELS

We have 40 JK Tyre Truck Wheels, which are fully equipped truck tyre service centres, offering 'Total Tyre Solutions'. They are located at strategic locations along the highways.

JK TYRE STEEL WHEELS

JK Tyre Steel Wheels exclusively deal in PCR tyre retailing. There are 300+ such outlets currently and they contribute significantly to our total PCR sales.

JK TYRE XPRESS WHEELS

JK Tyre Xpress Wheels service customers in rural, small town and semi-urban markets. Currently, there are 60+ Xpress Wheels. In addition to PCR tyres, Xpress Wheels also retail farm and two and three-wheeler tyres.

FLEET MANAGEMENT

JK Tyre's Fleet Management (FM) programme provides a comprehensive mobility solution to the customers. The objective of the programme is to provide the 'right support at the right time, for long-term gains'. We have over 1,500 fleet operators associated with us.

FUEL RETAIL OUTLETS

Our products are also sold through over 450 fuel retail outlets of IOCL, HPCL and Essar Oil Limited across India. This gives us the opportunity to reach out to customers in the interiors of the country.

MASS MERCHANDISE OUTLETS

In Mexico, we have tied-up with Walmart, Chedraui and Coppel, where our products are displayed and retailed through malls.

OUTLOOK

We aspire to be a complete tyre solutions provider for our customers. We have been strengthening our brand positioning and awareness with a larger portfolio, more focused marketing and larger distribution network.

POPULARISING MOTORSPORTS

JK Tyre has been championing the role of promoting motorsports in India since the last three decades. Be it charting roads to nations with JK Himalayan Drive, burning rubber at the drag racing in Bengaluru or supporting the cause of road safety at the Constitution Rally for parliamentarians, we continue to invest extensively in developing an infrastructure for motorsports in India.

We have played a pioneering role in unearthing fresh talent and readying India's top drivers for the global stage. Our well-established JK Tyre National Racing Championship is the talk of the town and completed 20 years of its eventful journey.

In 2017-18, we collaborated with the global two-wheeler giant, Suzuki, to include for the first time two-wheeler racing series in the National Racing Championship. The association has helped us connect with our potential customers in the two-wheeler segment and establish our brand in the segment.

Our association with motorsports reinforces our brand commitment and positioning of being a youthful and adventurous leader in the tyre industry.

Celebrated 20 years of JK Tyre National Racing Championship, which was attended by around 30,000 people

EXPANDING OUR GLOBAL HORIZON

We are a globally renowned tyre manufacturer, with our customer base spread across six continents. We have been expanding our global reach and business share with our manufacturing plants based out of India and Mexico.

ACHIEVEMENTS DURING FY 2017-18

- Our exports grew by 34% to ₹1,258 crore in FY 2017-18 compared to ₹937 crore in FY 2016-17, driven by newer products and a wider reach in the North American market.
- We have enhanced our OEM presence with Chrysler, Nissan (Car / Light Truck Radial), John Deere (Farm) and Case New Holland with Tornel.
- We now have greater access to the North American and emerging Latin American markets with Tornel.
- We expanded mass merchandise initiatives with Walmart in Mexico.
- We opened a new office in North America (region) that enabled us to tap the market more efficiently, along with the Mexican operations, bringing about synergies and a more focused approach towards the development of the product mix.
- We plan to open new marketing hubs in South America and Africa for enhanced focus on these markets.

FURTHER PENETRATION IN THE OEM SALE

Currently, we predominantly cater to the replacement market in the export market. The replacement market includes the TBR, TBB and PCR segments. We have been

driving our plans to further develop market-specific products for direct OEM sales. Our Mexican operations are now selling directly to OEMs, including Chrysler, New Holland, Nissan, John Deere and Renault. The Mexican portfolio is largely dominated by passenger car tyres, followed by trucks, LCVs, Farm and industrial tyres.

BRAND POSITIONING

We have three marquee brands catering to multiple segments in the international markets – JK Tyre, Vikrant and Tornel. While JK Tyre and Vikrant are placed in the premium segments of TBR, TBB and PCR, Tornel caters to the economy range of TBB and PCR.

DISTRIBUTION NETWORK

With replacement market being the key segment, we have webbed a distribution network of 250 dealers in the overseas market, including 100 exclusive dealers for our brands. We also engaged 200 distributors in the international market for an extensive coverage in addition to our marketing hubs in Mexico, Colombia, USA, Indonesia, Dubai and Moscow. We also have mass merchandise tie-ups with Walmart, Chedraui and Coppel in Mexico for retailing our tyres from these setups.

EMPOWERED TEAM

We believe our people are the foundation of our success and it is their passion, skills and knowledge that have driven the organisation. We are making strategies to create an exciting work culture that nurtures a dependable team and works towards long-term value creation for us.

5.1

Person-days of training per employee in FY 2017-18

Our talent management processes and systems are aligned to directly support our business requirements. Simultaneously, they are designed to help create a sustainable and inclusive culture within the organisation.

ACQUIRING TALENT

'Merit' is our criterion for recruitment. Therefore, our organisation has people from diverse cultures, castes, age groups, values, languages and nationalities. Our people appreciate this merit-based culture, which adds to the dynamic and competitive environment. We continue to induct young talented post graduates and graduates from premier institutions annually.

FOSTERING TEAMS

At JK Tyre, we invest in people strategies to help our people grow. Over the years, we have adopted several strategies to develop capabilities through learning programmes across all levels. These initiatives comprise competency-based assessment and coaching programmes for managers and skill-based training programmes for operator personnel at our plants. We also have a structured approach for employee engagement.

MAPPING PERFORMANCE

We have developed a competence framework aligned to performance management through which we identify the learning and development needs of our people. We also use it to build structured training programmes. Besides, we follow a structured approach for performance and compensation management, competency mapping and assessment, competency-based development and 360-degree feedback.

NURTURING A CULTURE OF COACHING

We encourage a culture of coaching in the Company to encourage employees who have leadership potential and to retain top talent. This way, we develop our organisational bench strength to establish a promising succession pipeline and empower our people to assist in their decision making. The coaching culture

is visible in the behaviour of our people and is steadily becoming a part of the organisational DNA.

MAINTAINING DIALOGUE BETWEEN PEOPLE AND MANAGEMENT

We aim to establish open and transparent communication between our people and our management to gauge their aspirations and feelings and ensure people retention. In this line, we organise monthly webcasts, townhall meetings and other such programmes.

DIGITALISATION OF PEOPLE PROCESSES

We invested in the digitalisation of our people processes and new-age systems for our young employees. Today, we use webinars, live webcast (called V-Connect), Skype for Business, internal social networking, online people processes and other digital tools that help our people perform better.

GOING FORWARD

Training people, improving communication and providing better support tools to enhance productivity, workplace vibrancy and competitiveness are our major focus areas. In the coming years, we will engage more with our people and continue to make the workplace an abode of learning, creativity and innovation.

CORPORATE SOCIAL RESPONSIBILITY

TOUCHING LIVES

In this connected world, the success of a business is weighed not only by its profits, but also by its efforts to make the world a better place to live. With this belief, we have been transforming lives with our explicit Corporate Social Responsibility (CSR) programmes. We call these programmes 'Social Investments'.

In FY 2017-18, our various social initiatives in the areas of education, livelihood, health and water conservation benefited 1,20,000 people. These beneficiaries were largely women and people from the underprivileged communities.

LIVELIHOOD ENHANCEMENT

In rural India, agriculture and livestock are the major sources of livelihood. In a bid to enhance farm and off-farm incomes of poor and marginal farmers, we initiated various agricultural and cattle breed improvement programmes.

Livestock development project in Morena

Under the livestock development programme, we used artificial insemination to improve cattle breed in 50 villages

of Morena. We also provided fodder development and animal healthcare services at farmers' doorsteps.

Highlights for FY 2017-18

- 4,452 artificial inseminations performed this year, reaching a total of 7,537
- 820 hybrid calves born this year, reaching a total of 1,200
- More than 20,000 cattle attended in health camps
- More than 5,000 farmers benefited directly

Agricultural improvement

In a bid to make agriculture more inclusive, technologically advanced and sustainable, we undertook efforts to train farmers, especially the women farmers, on modern

agricultural practices, including access to the latest technology, high-yielding variety seeds, optimum fertiliser regime and pesticides, etc. These initiatives have substantially improved agricultural production.

Highlights for FY 2017-18

- More than 500 farmers trained in advanced agricultural practices
- 2,700 mango saplings planted by 50 farmers

Self-Help Groups (SHGs)

Since availability of credit is the biggest challenge faced by the poor and marginal people, we formed SHGs to promote inter-lending and bank linkages. There are around 40 functional SHGs today, with more than 600 women members, who together generated savings during the last year.

Skill development

We initiated location-specific and market-oriented trainings under our skill development programme to enhance the entrepreneurial and employability skills of the unemployed youth. The youth were trained in mobile repairing, motor winding, beautician courses, tailoring and Light Motor Vehicle (LMV) driving for fork lift operators. Around 500 unemployed youths have benefited from the programme. Today, the small ventures started by these youths have the potential to grow into successful and profitable independent enterprises in the future.

HEALTH AND SANITATION

Adequate sanitation, coupled with good hygiene and safe drinking water, and easy access to healthcare facilities are pivotal for the good health and socio-economic development of a country. At JK Tyre, we partner with stakeholders in each of these areas to make a positive impact on the society.

Sanitation management

We partnered with the Government of India in its ambitious 'Swachh Bharat Mission' to make India open-defecation free. During the year, we built more than 1,200 toilets in rural areas as part of our efforts towards a cleaner and greener India, taking the tally to 2,300 toilets. Through various meetings, rallies, awareness drives, posters and banners, our

team has been ensuring that communities are using and maintaining these newly built toilets.

Prevention of HIV/AIDS among the trucker community

We are actively engaged in the prevention of HIV/AIDS among the trucker community. Our partner NGOs are running ten health clinics at high-risk HIV/AIDS locations. These include 'Khushi Clinics' in association with TCI Foundation at five locations and 'Jeevan Kiran Clinics' along with our partner NGO, Vatsalya, functioning at Jaipur, Shahpura, VKI Nagar, Udaipur and Gwalior. The project has benefited more than 20,000 patients, especially truckers, during FY 2017-18.

We supported a network of People Living with HIV/AIDS (PLHIV) in Rajsamand district of Rajasthan and also provided emotional support, guidance, medicines and nutritional supplements to HIV-positive people.

There are 1,034 PLHIV enrolled in the network and many of them have been also linked with various Government social schemes such as Antyodaya and Palanhar, among others.

Parivartan

'Parivartan', the reproductive and child healthcare project, has been running since 2004 in the tribal-dominated Rajsamand

district of Rajasthan. The project has significantly reduced the Infant Mortality Rate (IMR) and Maternity Mortality Rate (MMR) prevalent in the area. It has also inculcated health-seeking behaviour among the marginal and disadvantaged communities. During FY 2017-18, more than 9,000 patients have been provided medical support and free medicines under this programme.

Pushpawati Singhania Hospital & Research Institute, New Delhi

Pushpawati Singhania Hospital & Research Institute is a multi-specialty hospital, co-promoted by us. The hospital extends its services for the well-being of common public and is a not-for-profit organisation. Since the last two decades, more than one lakh patients each year are availing affordable and best-in-class healthcare services at the hospital.

Sustainable Drinking Water Project at Kankroli

Safe drinking water is still a scarcity in the interiors of India. Under our project at Kankroli, we have built a sustainable and regular drinking water supply system that has benefited more than 2,000 poor and marginal ethnic groups.

CORPORATE SOCIAL RESPONSIBILITY

WATER CONSERVATION

We have achieved the distinction of being one of the lowest water-consuming companies and have established a new benchmark for water consumption in the global tyre industry.

We have initiated various water conservation initiatives in villages located close to our manufacturing plants to enable the local communities become water sufficient. A total of 25 community water tanks, six check dams and 38 farm ponds have been developed to harvest a large amount of water for irrigation, ground water recharge and for animals to drink.

Other water conservation activities such as farm bunding, borewell recharge and soak pits have also been implemented to conserve water and benefit more than 10,000 local people.

Highlights for FY 2017-18

- More than 10,000 farmers benefited from water tanks.
- Actively participated in Jal Sawavlamban Abhiyan of the Government of Rajasthan and constructed six check dams.

EDUCATION

Education is the driving force behind a country's growth. At JK Tyre, we believe in inclusive growth. Our programmes are focused on building a conducive environment for knowledge sharing and development.

Adult literacy

The adult literacy programme being run at all our manufacturing locations has transformed the lives of more than 50,000 rural illiterate women. These women are now functionally literate and can read and write with ease. They can do basic calculations and help their children in studies. Many have also started income-generation activities and progressed towards prosperity.

The adult literacy programme at Central Prison, Mysuru, is a unique initiative that helped more than 5,500 prison inmates to become functionally literate.

We adopted three Government Industrial Training Institutes (ITIs) under the Public Private Partnership (PPP) model to impart job-oriented quality vocational education for the benefit of more than 500 local students each academic year. Today, campus interviews in these ITIs are conducted by reputed corporates, thereby enhancing the reputation of the adopted ITIs. The initiative has also resulted in providing almost 100% employment to the local students.

Support to schools

Apart from running our own school at Jaykaygram, we are supporting many schools to bring about an improvement in pedagogy, learning outcomes, digital learning and ensuring better infrastructure. Remedial classes are run for weaker students after the school hours to bring them at par with other students.

Highlights for FY 2017-18

- 3,895 women have become literate this year, while the total is more than 50,683 so far.
- 570 Mysuru prison inmates educated this year, while the total is more than 5,500 so far.
- LPS School at Jaykaygram – 1,450 students.
- Nine schools in the vicinity of the Kankroli Tyre Plant (KTP), benefiting more than 400 children.
- Distributed 150 laptops in Government College, Karnataka.

FINANCIAL SECTION*

Directors' Report

To The Members

Your Directors are pleased to present the Annual Report of your Company, along with Audited Financial Statements for the year ended 31st March, 2018.

OPERATIONS

The year witnessed remarkable policy and structural reforms. The implementation of Goods and Services Tax (GST), recapitalization of Public Sector Banks and other fiscal initiatives will strengthen the Indian economy. In the backdrop of various reforms and developments, the international credit rating agency, Moody's, upgraded India's rating after a gap of about 13 years.

During this fiscal, the Indian economy has grown by 6.75%. With the continued focus on rural economy, healthcare, education, infrastructure and digitalization, the GDP is expected to surge ahead in the range of 7 - 7.5% in FY19 leading to a modern, strong and confident India.

The Tyre Industry grew by 7% in volume. JK Tyre outgrew the Industry ending the year with a growth of 11%, and increased its market presence across categories especially in Truck, PCR, Light Truck, Small Commercial Vehicles, Farm and OTR tyres. Truck radialization further accelerated to 47% during the year and is expected to cross 50% in the year ahead.

The year 2017-18 witnessed an unprecedented increase in the oil prices which together with pre and transitory GST implementation effect had a major impact on production costs and margins of the Tyre Industry as a whole. JK Tyre was no exception.

The Company alongwith its subsidiaries, on a consolidated basis, recorded a Turnover of ₹ 8,543.41 Crores with Profit Before Tax (PBT) at ₹ 106.81 Crores.

On a standalone basis, the Company achieved a turnover of ₹ 6,610.95 Crores with PBT of ₹ 63.85 Crores.

RAW MATERIALS

The year under review witnessed overall raw material cost increase by 13%, while tyre prices increased marginally.

The first half of the year saw raw materials prices spiraling by as much as 23% over the corresponding period. Oil prices did not abate and surged to a high of US\$ 75/barrel. This impacted all the petro based raw materials, particularly carbon black where prices increased by as much as 35%. Natural Rubber prices too remained high throughout the year besides constrained availability.

R&D AND TECHNOLOGY

Technology & innovation play significant role in performance and growth of any organization. To innovate, your organization relies on R&D and technology teams, who passionately work on consistently improving process and products through their knowledge and skill. They create innovative products by understanding application needs and attributes required, through basic & applied research in laboratory and in manufacturing. Innovation and creativity are driving forces behind the R&D and Technology efforts of your organization.

JK Tyre in association with Hari Shankar Singhania Elastomer and Tyre Research Institute (HASETRI) and "RPS Centre of Excellence for Tyre and Vehicle Mechanics" located at IIT Madras is continuously working on advanced material, alternate material, nano technology, process and product simulation, predictive technology, advanced tyre mechanics, tyre characterization including working towards reduction of raw material consumption. For reduction of greenhouse gas emissions (carbon dioxide), HASETRI in association with JK Tyre's product development group is developing tyres with reduced rolling resistance & traction (wet & dry) without affecting mileage.

These efforts helped your Company offer various high performance tyres for new generation vehicles, which were successfully commercialized across categories.

AWARDS

During the year under review, your Company received several coveted awards for excellence in the following areas:

1. Certified as **Great Place to Work** for the year 2018
2. **Best Supplier Quality Excellence Award 2016** from General Motors

A. ENERGY CONSERVATION

To be a "green company" is one of the key mission of JK Tyre and, this is pursued rigorously, thus focusing on sustainable use of energy. JK Tyre continues to establish milestones in energy conservation and it is a matter of satisfaction that during FY' 2017-18, total energy benchmark level of 10.01 GJ/ton of production was established and JK Tyre is one of the top 5 companies in this sector worldwide.

Our journey of continuously conserving energy is rigorously monitored and course correction identified. JK Tyre is the first Indian Tyre Company, which is yearly certified by BSI for CFV as per Standard ISO 14064, and this focus on GHG emission has resulted in over 34% reduction in emission over base year. JK Tyre has now achieved a new benchmark by achieving water consumption of 2.42 ltr/kg of production (14% reduction over last year).

At JK Tyre, thrust for usage of renewable energy is one of the key approaches towards energy efficiency. As a result, today 37% of its total power requirement is being met from renewable energy sources both Solar and Wind.

B. TECHNOLOGY ABSORPTION

Management Discussion and Analysis

ECONOMIC & BUSINESS ENVIRONMENT

The year under review has been a challenging period for India's economy, with some disruptions during the first half of the financial year. During FY 2017-18, the Government of India introduced several key reforms to power the nation's long-term growth. Among them, the most important was the implementation of Goods and Services Tax (GST) in July 2017, which radically transformed India's markets with more accessibility and a tech-driven, uniform indirect tax infrastructure. The second half of the year witnessed the economy showing signs of revival and stabilisation post implementation of GST. Moreover, international credit rating agency Moody's upgraded the country's sovereign rating from Baa3 to Baa2 revising the outlook from stable to positive during this phase. In the last five quarters, India's economy grew at its fastest pace and in Q3 it regained the status of 'fastest growing major economy in the world' with annual growth close to 7%. Coupled with controlled inflation and favourable monsoons led to improved agricultural performance, resulting in a rise in rural income. Besides, positive investor sentiments across industries helped the overall economy grow.

However, the increase in global crude oil prices are likely to have a cascading inflationary effect on the economy as prices of petrol and diesel are at a four-year high. Moreover, international trade wars and protectionism policies across the world are also a growing concern for India's economy as it may influence exports and imports, going forward. Nevertheless, the overall outlook for India's economy is positive with the Government of India pushing for long-due economic reforms in the country.

INDIAN AUTOMOTIVE INDUSTRY

The revival of India's economy was reflected through the increased sale of vehicles across segments.

India has the world's fourth largest automobile market that is growing rapidly. The country's automotive industry is set to witness major transformations due to evolution of electric vehicles (EVs), shared mobility, Bharat Stage VI (BSVI) emission and enhanced road safety norms. With the migration to BSVI standards well on its way, green mobility by 2030 is the new target on the horizon. Besides, the proposed vehicle scrap policy is also likely to propel demand in India's automotive industry. Also, higher cost of inputs across the industry has compelled most vehicle manufacturers to increase prices.

During FY 2017-18, India's overall vehicles sales registered a double-digit growth — after a gap of five years — at ~15%. While truck/bus segment grew by 12%, sales in light commercial vehicles (LCV)

segment rose by 25%. The small commercial vehicles (SCV) segment, which had been decelerating for the past few years, expanded by 30% in FY 2017-18, thereby indicating that last mile transportation is on the rise. At the same time, passenger vehicles (PV) recorded a nominal growth rate of 2%, riding on the popularity of compact SUVs. The MUV/SUV segment surged at 19%, crossing the 'million' sales mark during the year under review. Moreover, for the second consecutive year, tractor sales remained positive while increasing at the rate of 20%. The two- and three-wheeler segment, which is the largest segment by volume, expanded by 16%.

These factors demonstrate a positive run for the automotive business in future, thereby ushering in an encouraging phase for the tyre industry.

TYRE INDUSTRY SCENARIO

The long-term benefits of GST will continue to accrue in the coming years, although its implementation led to temporary disruptions in the first half of FY 2017-18. This coincided with the increase in input costs of carbon black, chemicals and steel wires. In addition, the price of natural rubber remained consistently high throughout the year under review.

The supply chain of the tyre industry continued to be adversely affected by the shortage of domestically available natural rubber and carbon black. These factors influenced margins and profitability as the incremental cost could not be passed on to the end users due to intense competition in the market.

The overall tyre market registered a growth of 7% by volume. The truck/bus segment declined marginally at less than 2%, while the truck radial segment grew by 7%. The overall level of radialisation in the truck/bus segment increased to 48%. Additionally, the imposition of anti-dumping duty for truck/bus radials (Chinese tyres) in September 2017 came as a relief to the industry.

The passenger tyre segment grew, albeit at a slower rate of 8%. The LCV tyre segment bounced back with a growth of 11%, after a substantial dip in the previous year, which was primarily due to the uptick in the radial segment. The SCV tyre market witnessed an upward movement of ~9%. Besides, the recovery in India's agriculture sector helped Farm tyres segment register a growth of 10%. The two- and three-wheeler tyres segment forms a large part of tyre sales and during FY 2017-18 it rose by 8%. Earthmover (also known as OTR) tyres had a substantial rise in demand of ~21%, for the second year in a row.

JK Tyre - A Snapshot

- Grew in volume by 11% vis-à-vis the industry growth rate of 7%
- Increased market presence across categories especially in truck, light truck, SCV, farm and OTR tyre categories
- Enhanced outreach significantly by channel growth through JK Steel Wheels – the Company's brand outlets
- Enhanced brand mindshare and customer involvement with differentiated communication strategy, brand activations and consistent presence in the media
- Augmented brand connectivity and engagement with customers across segments through new digital platforms
- Leveraged digital media to amplify various marketing initiatives
- Increased the Company's renewable energy usage to 37%
- Bagged '**Extraordinary Brand**' recognition at the Brand Vision Summit 2018 and remained India's **only Tyre 'Super Brand'**

Dr. Raghupati Singhania, Chairman & Managing Director, was also recognised as '**The Extraordinaire**' for his leadership and contribution to the industry by Brand Vision Summit 2018.

CATEGORY WISE BUSINESS OVERVIEW & INITIATIVES

Truck/Bus Bias And Radial

JK Tyre continues to be innovative and pioneering in its truck radial segment by offering best-in-class products to its customers and increasing its geographical reach of services. The Company has increased its total number of customer touchpoints through the growing 'JK Tyre Truck Wheels' network. These centres provide complete tyre care solutions to truck customers such as alignment/balancing/tyre changing and inflation/air-care with quick turnaround times and more.

The unique three-tiered offerings and brand strategy in truck radials and two-tiered structure in truck bias, enabled JK Tyre to widen its footprint and further strengthen its presence in the largest business category. In line with changing market needs and consumer preferences, JK Tyre introduced products for the moderate- to heavy-load segment both in bias and radial. During FY 2017-18, the Company launched:

- Jet Xtra-XLM — designed to cater to both load and mileage needs — in the bias segment
- Jet Steel JDE — with extra mileage and load capability — in the radial segment
- Jet Way-JUM — a superior product for universal application in buses and select application in trucks — in the truck radial tubeless segment.

The Company further enhanced its customer connect activities through regular product specific campaigns in target markets. It strengthened customer communication through interactive meetings, road shows, retail displays and wall paintings.

The JK Tyre Fleet Management programme has benefitted a large number of fleets for more than a decade. Dedicated JK Tyre personnel continue to provide technical consultancy and awareness on tyre usage, enabling the customers to save on tyre costs.

During FY 2017-18, the Company further engaged with its fleet customers from across the country by organising Regional Fleet Meets and showcasing the state-of-the-art Chennai tyre plant. Moreover, India's top fleets were invited to participate in the National Fleet Conference for the 9th year in a row.

Besides, the long-standing CRM programmes 'JK Star' for channel partners and 'JK Badshah' for fleet customers continued to successfully engage with them.

PASSENGER VEHICLE TYRE

For the PV tyres segment, JK Tyre sustained a multi-pronged strategy focussed on amplifying the brand, widening retail reach and enhancing customer connect throughout the year.

During FY 2017-18, the emphasis was on retail expansion. The Company added over 100 JK Tyre Steel Wheels' brand shops, forging a network of 300+ Steel Wheels in cities and more than 60 Xpress Wheels in small towns and semi-urban markets. This expansion has enabled JK Tyre to increase its total number of customer touchpoints, thereby enhancing brand visibility and access to its products and services.

During FY 2017-18, the Company launched special premium 'White lettered' tyres in Ranger SUV tyres, which delighted customers.

JK Tyre also introduced 'Taxi Max' to cater specifically for the requirements of taxis with a promise of 1 lakh+ kms mileage, backed by an unconditional warranty. The product garnered very encouraging response.

For smaller markets, which are catered through the distribution network, the economy brand 'Challenger' was introduced in select sizes.

Two/Three-Wheeler

The campaign 'Ab Se Tyres Mein Sirf JK is OK' caught the imagination of target audiences and set the tone for the year. JK Tyre registered a growth of 63% in this category, consolidating the gains in its second year of operations in the segment. The Company utilised the aforementioned theme to deliver a seamless marketing campaign encompassing electronic media and below-the-line activities that included high visibility through retail merchandising. JK Tyre further conducted a field campaign '2 Wheeler Ka Don' for market influencers such as mechanics and fitters across different states.

The Company further partnered with its distributors to organise sub-dealer meets to increase secondary sale and build confidence in the Brand. This brought good traction in a highly competitive but potential market.

JK Tyre 'Blaze Zone' at Auto Expo 2018 was well appreciated by visitors. The Company used digital media, as well as other innovative mobile campaigns to build a great connect with the target audience.

JK Tyre further introduced a new flagship product 'BLAZE RYDR' for high-end, high-speed motorcycles.

New and innovative patterns launched in scooter tyre range were highly appreciated by customers. During FY 2017-18, 22 new sizes were unveiled in the premium brand 'Blaze' and four sizes in the 'Challenger' series. Brand JK Tyre has also made an entry into the two-wheeler OEM segment.

JK Tyre, being a youth focussed brand, associated with the 'Suzuki Gixxer Racing Cup'. The Championship offered a good platform to garner well publicised selection rounds across the country at zonal locations. The selected riders/participants were invited to participate in the JK Tyre National Racing Championship.

LIGHT AND SMALL COMMERCIAL VEHICLES

The growth in e-commerce, education, hospital and hospitality sectors led to an upsurge in LCV sales.

During FY 2017-18, the Company conducted customer-centric marketing campaigns in top 800 LCV and SCV stands and unions across various states in India. Moreover, JK Tyre targeted large school bus fleets through in 'Back to School' campaign. The campaign focussed on 'driver training' and 'maintenance drive' with top schools across the country to raise awareness about the Company and its commitment to ensure safety of school buses.

JK Tyre continued its dominance in the fast growing 'pickup segment' with the introduction of new products. The Company is also geared to meet future demands of OEMs. There was also a significant growth in sales of LCV/SCV categories from JK Tyre brand shops, which deliver enhanced customer experience. Additionally, there has been strategic impetus on selling increased volume of premium products and several new products were introduced in LCV and SCV segment.

FARM TYRE

The Company focussed on promoting a premium range of tractor tyres — SONA-1, through innovative customer campaign called 'Jagriti Se Pragati' by using virtual technology. The campaign has been recognised as the 'Best Rural marketing Campaign for Brand Development' by CMO Asia.

Radio is still a popular medium in rural areas, thus JK Tyre used the 'Radio Khushali' campaign to promote farm range tyres to a large customer base in all key markets of the country.

Tractor mechanics were oriented to guide customers on JK Tyre farm range under JK USTAD programme. Team JK Tyre also connected with local community leaders to create JK Tyre product awareness.

JK Tyre increased reach with new OEMs partnerships with Escorts and Sonalika for supply of SONA-1 tyres, in addition to existing OEM partners like Mahindra & Mahindra (M&M), John Deere, TAFE, Eicher and Captain Tractor.

JK Tyre engagement programmes with OEMs and replacement market customers have yielded 70% sale of premium tyres. Its efforts in the farm category had been recognised by CNBC Awaaz and the Company was felicitated with 'Gold Award' in 7th Customer Engagement Forum.

OFF THE ROAD

JK Tyre with wide range of OTR tyres surpassed industry growth in the year under review. Product quality and customers preference has made JK Tyre a preferred partner of JCB, Caterpillar and Coal India.

RETREAD BUSINESS

JK Tyres has expanded its chain of retread centres to all commercial hubs of the country, as part of the strategic vision for providing end-to-end solutions. These centres are outfitted with ultra-modern equipment and provide comprehensive linkages to all channel partners, truck wheels and fleet owners to ensure viability of the outfits. Such retreading solutions have also been extended to large OEMs and State Transport Undertakings (STUs).

ALTERNATIVE CHANNEL

JK Tyre has strategic marketing alliances with oil marketing companies — Indian Oil Corporation Ltd., Hindustan Petroleum Corporation Ltd. and Essar Oil Ltd. — to retail its entire tyre range across India. This has significantly increased the Company's market reach and visibility in hitherto unrepresented markets.

SERVE TO SUCCEED - CUSTOMER FIRST INITIATIVES

JK Tyre believes in the mantra of 'Customer First'. Therefore, its Technical Service teams constantly provide pre and post-sales services in terms of customer education and engagement. JK Tyres major share of business is being contributed by OEM partners like TATA Motors, Maruti Suzuki, Ashok Leyland, M&M, TAFE, John Deere and TMTL. The Company uses this association to reach a large number of end users through different activities of training, product demonstration and education, among others.

EXPORTS

JK Tyre's export business faced several geo-political and economic headwinds in FY 2017-18 across several international markets. The Company satisfactorily met these challenges with adroit handling and strong customer relationships. This enabled it to cultivate its exports, resulting in revenues of ₹ 889 Crores, which is an increase of 41% over the previous year.

JK Tyre continued expansion of its radial markets in Latin America, North America, Africa and the Middle East. In addition, a renewed thrust enabled growth in bias tyre business across the select bias markets.

MANUFACTURING EXCELLENCE AT JK TYRE

At JK Tyre, manufacturing continues to be strong pillar of growth and it has taken new strides in manufacturing excellence during FY 2017-

18. The Company received TPM Consistency Certification from JIPM Japan for one of its plants, which has enhanced motivation to achieve the highest level of quality consistency and robust operations.

JKTyre has also been recognised at various platforms for its excellence in manufacturing, some of the important ones are:

- a. National Award for Excellence in Water Management
- b. Gold Award by National Awards for Manufacturing Competitiveness
- c. Rashtra Vibhushan Award 2017 — Platinum award for Environment Protection by FAME India
- d. CII National Award for Excellence in Energy Management

The Company continues to improve its energy efficacy and efficiencies, and thereby being recognised by national and international forums. Today, JK Tyre is contributing to a better climate with 37% use of green energy, controlled greenhouse gases (GHG) generation and 27% reduced specific eCO₂. In addition, it is also focussed on plant process waste to further strengthen the 'RRR' (reduce – recycle – reuse) philosophy and achieved lowest-ever plant waste figures in FY 2017-18.

People are the core of any manufacturing process, and the Company is consistently focussing on people involvement in processes. During the year under review, over 30 teams across plants participated in various Quality Circle competition and came out with flying colours. Going forward, JK Tyre will continue with such initiatives to excel in manufacturing.

RAW MATERIALS

FY 2017-18 opened on a volatile note for the tyre industry with high raw material prices, reflecting the momentum of peak prices between January and March 2017. The high prices prevailed during the early part of FY 2017-18 but softened slightly as the year progressed.

During September and October 2017, again there was a spurt in raw material prices owing to various factors across the globe. In between, natural rubber (NR) producing countries, through a common forum, tried to curtail export of NR from their countries, which included the leading producer of NR like Thailand. This led to further strengthening of NR prices. The other key inputs like steel wire, chemicals, carbon black and others also witnessed constrained supplies.

The constraint compressed margins, though to some extent the damage could be controlled by careful advance planning and taking pro-active actions in procuring raw material in advance.

FINANCIAL PERFORMANCE

Mentioned hereunder is a brief summary of the Company's performance for the financial year ended 31st March, 2018:

Particulars	Standalone Year Ended		Consolidated Year Ended	
	31st March 2018	31st March 2017	31st March 2018	31st March 2017
Turnover	6,610.95	6,667.17	8,543.41	8,383.28
Operating Profit (PBIDT)	519.79	805.62	883.18	1,197.84
Finance costs	274.12	267.58	465.50	440.36
Profit before Tax (PBT)	63.85	459.70	106.81	535.24
Tax expenses	20.76	127.57	43.89	155.42
Profit after Tax (PAT)	43.09	332.13	62.92	379.82

The year witnessed increase in input costs on account of surge in raw material prices, especially petro products that impacted operating margins.

JK TORNEL

JK Tornel, Mexico recorded a turnover of ₹ 1,073.29 Crores. The Company successfully implemented labour restructuring during FY 2017-18. The strategy is expected to reduce labour costs and thus improve the profitability in future.

CAVENDISH INDUSTRIES LTD.

The operations of Cavendish Industries Ltd. are now well integrated with its parent, JK Tyre. The Company's turnover increased from ₹ 1,171.28 Crores to ₹ 1,670.47 Crores, recording a rise of 43%. During FY 2017-18, its capacity utilisation also increased significantly indicating that operations have stabilised and the Company is poised to further establish new benchmarks in various operating parameters.

R&D AND TECHNOLOGY

JK Tyre relies on research and development (R&D) and its technology team to consistently improve its product range. Innovation and

creativity are driving forces behind the R&D and technology efforts of the Company.

JK Tyre's R&D and technology activities are a key to pursue its growth strategies by consistently driving processes and product improvements. Besides, these initiatives encourage assessment of new opportunities for sustainable development of the Company and all its stakeholders.

JK Tyre, in association with 'Hari Shankar Singhania Elastomer and Tyre Research Institute (HASETRI), a premier Scientific and Industrial Research Organisation (SIRO) and 'RPS Centre of Excellence for Tyre and Vehicle Mechanics' located at IIT Madras is enhancing its R&D activities. The Company is continuously steering towards the development of advanced and alternate materials. Moreover, it is working on nano-technology, processes and product simulation, predictive technology, advanced tyre mechanics, tyre characterisation including rationalization of raw material consumption, recycle

resources and their efficient usage. For reduction of GHG emissions (CO₂), HASETRI in association with JK Tyre's Tech Centre is working towards developing tyres with reduced rolling resistance and traction (wet and dry) without affecting mileage. JK Tyre with support from HASETRI is working towards invention of ultra-low rolling resistance (fuel efficient) tyres, without affecting the dry/wet traction (safety) and ride and handling.

The above efforts of the Company culminated in development of various high-performance tyres for new generation vehicles in PCR/LTR and TBR categories.

MOTORSPORTS

During FY 2017-18, the flagship event JK Tyre-FMSCI National Racing Championship, celebrated its 20th year in a manner befitting the occasion at the iconic Buddh International Circuit in Delhi-NCR. The programme hosted over 25,000 spectators who witnessed the thrilling Euro JK 17 cars in action at the grand finale of the 20th JK Tyre FMSCI National Racing Championship. Besides, during the event, several newcomers debuted, among whom 17-year-old Mira Erda emerged as the first Indian girl to race in the International Euro JK 17 formula car.

JK Tyre in partnership with Suzuki launched the exciting Suzuki Gixxer Cup, a two-wheeler racing platform, which also marked its entry into the two-wheeler tyre business.

The Championship also saw some of Asia's finest bikers participate in the Asia Cup of Road Racing, with India's Sai Rahil scoring a double to grab the title. For bike-lovers there was pulsating action in the form of the JK Super Bike races in two categories: 600cc and 1000cc.

There was a separate leg for youngsters too in the form of the JK Tyre Red Bull Road to Rookie Cup, with the winner getting a chance to race against the world's best in Spain.

The Drag Racing Championship in Bangalore, JK Tyre Vroom 2018 attracted the best drag racers from all over the country. The dash over the quarter-mile saw Hayabusas and Lamborghinis in action. In a significant effort to bring motorsport to North-East India, the Company has launched JK Tyre Orange 4x4 Fury and the Festival of Speed in Arunachal Pradesh. These Championships have become sought after events where India's top off-roaders and rallyists compete in tough, unknown terrains. The JK Himalayan Drive is the only tri-nation TSD rally of India, where participants drive across borders through Nepal and Bhutan.

JK Tyre further promoted the cause of road safety through another event — Rally for Parliamentarians — in the national capital, where over 50 Members of Parliament participated. India's honourable sports minister Rajyavardhan Singh Rathore graced the grand prize distribution ceremony.

HUMAN RESOURCE DEVELOPMENT

The Company firmly believes that in the borderless and fast-evolving global business landscape competition is the order of the day. The

key differentiators for any organisation is its talented and engaged employees, who provide the fuel for growth. Therefore, JK Tyre continuously adds to its talent pool and sources the best talent in the industry. It provides unique learning and development opportunities to employees for continuous high performance, seamless succession planning and talent retention.

At JK Tyre, managing future human capital means more than just reacting to changing trends. The Company consistently monitors workforce issues, including developing talent, implementing learning programmes and succession planning. Human resource uses structured approaches for employee engagement, resourcing, performance and compensation management, competency mapping and assessment centres, career planning, 360-degree feedback, management development programmes and others.

The Company has been certified as 'Great Place to Work' for the year 2018. It's a recognition of efforts of building a high-trust, high-performance culture in the organisation and also a mark of trust, pride and camaraderie, which all employees enjoy at JK Tyre.

RISKS AND CONCERNS

Risk is an inherent and inevitable component of business. In today's fiercely competitive environment, it is crucial to mitigate risks. Common risks in tyre business include risks of: regulatory changes; intense competition; business risk; technology obsolescence; investment risk; retention of talent, especially skilled manpower; economic cycles; availability of raw material; crude prices and others. Business risk, inter alia, further includes financial risk, political risk and legal risk. To manage risks more efficiently, the Company has identified key risks that can have a significant impact on its performance and has devised strategies to minimise impact of each risk. In a nutshell, the Company has identified the following risks:

Economic risks

Regulatory changes impact business in domestic as well as overseas markets. During FY 2017-18, the world's trade environment witnessed uncertainty due to regional tensions and renegotiations of trade treaties. This also impacted the purchasing power in certain countries where the Company exports its products. To reduce these risks, the Company identifies markets, which are relatively stable and makes every effort to enhance sales there. It also expands its product range in various segments and deploys new/additional sales and service teams. The Chinese imports continued to impact the domestic market, though the threat was partially mitigated by imposition of anti-dumping duty.

Raw material shortage risks

The Company faces risks of raw material availability when there are domestic and international domestic supply-demand mismatches. For example, during FY 2017-18, carbon black was in shortage due to global and domestic supply constraints. The Company reduces such risks by entering into long-term collaborations with major suppliers apart from continuously exploring and developing new and alternative sources. The Company also reduces this risk by advance procurement of materials which are short in supply.

Operational risks

Operational risks arise in day-to-day functioning of business and include risks like equipment obsolescence, power and water shortages, among others that can impact outputs. To mitigate these risks, the Company consistently undertakes preventive maintenance and monitors equipment obsolescence on a regular basis. It makes continuous investments in modernisation of equipment across all locations. To overcome any power shortage, the Company has backup power arrangements. It has also partnered with various power generation companies to guarantee uninterrupted power supply. The Company addresses water shortage by identifying alternative sources and undertaking measures like rainwater harvesting, water recycling and others. These methods further reduce water consumption levels.

Market risks

The Company actively observes market demand on a real-time basis through automated connectivity with OEMs, dealer network and other stakeholders in the value chain. It consistently expands its network, enters into partnerships with channel partners and launches new products. Moreover, the Company keenly focusses on customer retention and growth, brand building, consumer education and awareness to enhance demand for its products. It has also increased customer connect through e-portals significantly.

Technology risks

The Company incessantly tracks changing customer needs, preferences and accordingly plans for future market requirements. It introduces new technology and continuously develops new competitive edge based on future customer needs and market requirements. Technology risk is mitigated through innovations to increase speed-to-market, constantly evaluating energy consumptions and plant productivity parameters, benchmarking products with world's best and implementing timely capacity expansions. Besides, the Company consistently upgrades its facilities, hones skills of its employees and bolsters its infrastructure. There is also extensive use of available knowledge through international experts/networks.

Risk management forms an integral part of the business planning and review cycle at the Company. Its risk and control policy are designed to provide reasonable assurance that objectives are met by integrating management control into daily operations, by ensuring compliance with legal requirements and by safeguarding the integrity of the Company's financial reporting and its related disclosures. It makes the management responsible for identifying critical business

risks and implementing fit-for-purpose risk responses.

INTERNAL CONTROL SYSTEMS

The Company has since inception, laid down a system of internal control system which is commensurate with the size and nature of the business. Adequate and effective checks are in place to ensure that financial data is accurate and reliable. The internal control systems also ensure that the assets and the interest of the Company are well protected.

The internal audit is carried out through-out the year based on a systematic plan covering all functions and aspects of the business. The internal audit reports are reviewed by the senior management and are placed before the Audit Committee of the Board of Directors alongwith actions taken. The Audit Committee undertakes a detailed review of the audit observations and the actions, in order to ensure effectiveness of the functioning of the internal audit system and also to ensure that the system always remains commensurate with size and nature of the business. The recommended actions by audit are monitored and improvements are implemented.

The IT system of the Company is based on a robust ERP System ensuring seamless connectivity of plants. Sales Offices and head office facilitating faster and more reliable processing of transactions as well as generating reports for faster decision-making. The Company also has a strong control system and management reporting system which serves as the backbone of the monitoring system of operations to ensure that business results are achieved and continuous improvement projects are undertaken.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1 : Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?

The Company has in place a "Code of Corporate Ethics And Conduct" from February 2002, which reiterates its commitment to maintain the highest standards in its interface with stakeholders, clearly laying down the core values and corporate ethics to be practiced by its entire management cadre. All the employees sign this Code at the time of joining the Company.

The Company also has in place a "Code of Conduct for Board Members and Senior Management". Every year, the Board Members and Senior Management affirm compliance with this Code of Conduct.

The Company also has in place a Policy on Vigil Mechanism (Whistle Blower Policy) for the Directors and Employees of the Company to report their genuine concerns or grievances relating to actual or suspected fraud, unethical behavior, violation of the Company's Code of Conduct or ethics Policy, and any other event which would adversely affect the interests of the business of the Company.

The said Codes/Policy cover all dealings with suppliers/customers/business associates/others.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The Company has received two complaints from the shareholders during the financial year 2017-18, which were promptly resolved. No complaint was pending as on 31st March 2018.

The Company has not received any complaint under the said Codes/Policies during the financial year ended 31st March 2018.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List upto 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

185/65R15 UX Royal:

Asymmetric tread pattern makes this product futuristic and to achieve superior performance. Compliance to ECE R-117 ensures low tyre noise, better wet grip and lower rolling resistance. The designs leads lower noise pollution and full customer satisfaction with higher fuel efficiency makes it safe with high wet/dry grip performance.

2 Wheeler Blaze Product 2.75-17F82 & 3.00-70F84:

To distinguish between run of the mill motorcycle tyre available in market, the product was designed to have higher fuel efficiency to not only OE customers but also to the end consumers. This product was especially designed for Bajaj Platina and commercialized successfully.

Range for Export Market Both in TBR & PCR:

Meeting stringent regulation like ECE R117 , ensures that product meet all environment needs and is a green product. This product line complies with ECE Regulation 117, ensuring Tyre Noise, Wet grip and Rolling Resistance within European Standard limits. Its asymmetric pattern design generates least noise which in turn leads to lower noise pollution and better customer satisfaction.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

- (a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?
JK Tyre continues to establish milestones in this direction & is a matter of satisfaction that during Financial Year 2017-18, total energy benchmark level of 10.01 GJ/ton of production is established and JK Tyre is tagged along with the top 5 companies in this sector worldwide.

Our journey of continuously conserving energy is rigorously monitored every quarter & course correction is identified. As JK Tyre is the first Indian Tyre Company, which is yearly certified by BSI for CFV as per Standard ISO 14064, this focus on GHG emission has resulted in over 34% reduction in emission over base year. JK Tyre has now achieved a new benchmark by achieving water consumption of 2.42 ltr/kg of production (14% reduction over last year).

- (b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Continual process of innovation in technology and product service has enabled the company to deliver the product, which are prone to fuel savings which ultimately conserve the energy at the consumer end.

3. Does the company have procedures in place for sustainable sourcing (including transportation)?

- (a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.
The Company focuses on environmental impacts of sourcing and continually works with the vendors and suppliers to reduce the same. We are aware that most of the vendors/suppliers for key raw material are working on sustainable basis. Transportation and logistics optimization is an ongoing activity to reduce the relative environmental impacts.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

- (a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?
During the year, the Company has procured sizeable material from the local sources or vendors (except the major raw materials). These vendors are basically supplying the general consumables as well as spares for the equipment. The Company also encourages the vendors to adopt quality, environmental and safety management practices. Annexure B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in paragraph 2(f) of 'Report on Other Legal and Regulatory Requirements' section

We have audited the internal financial controls over financial reporting of JK Tyre & Industries Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statements

NOTE - 1 COMPANY OVERVIEW, BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

1.1 The Company overview:

JK Tyre & Industries Limited (JKTIL) is a public limited company incorporated and domiciled in India and its shares are publicly traded on the National Stock Exchange ('NSE') and the Bombay Stock Exchange ('BSE'), in India. The registered office of the company is situated at Jaykaygram, PO - Tyre Factory, Kankroli - 313342 Rajasthan, India.

JKTIL develops, manufactures, markets and distributes automotive Tyres, Tubes, Flaps and Retreads. The company markets its Tyres for sale to vehicle manufacturers for fitment as original equipments and for sale in replacement markets worldwide. The company has six manufacturing plants located at Kankroli (Rajasthan), Banmore (Madhya Pradesh), Sriperumbudur (Chennai) and three plants at Mysore (Karnataka).

These financial statements were approved and adopted by board of directors of the Company in their meeting held on 17th May, 2018.

1.2 Basis of preparation and measurement of financial statements:

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules 2015, as amended from time to time and other relevant provisions of the Companies Act, 2013. All accounting policies and applicable Ind AS have been applied consistently for all periods presented.

The financial statements have been prepared under historical cost convention on accrual basis, except for the items that have been measured at fair value as required by relevant Ind AS. The financial statements correspond to the classification provisions contained in Ind AS-1 (Presentation of Financial Statements).

The preparation of these financial statements requires management judgments, estimates and assumptions that affect the application of accounting policies, the accounting disclosures made and the reported amounts of assets, liabilities, income and expenses. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are made in the period, in which, the estimates are revised and in any future periods, effected pursuant to such revision.

1.3 Significant accounting policies:

(i) Property, plant and equipment:

- a) Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Expenditure during construction / erection period is included under capital work-in-progress and is allocated to the respective property, plant and equipment on completion of construction / erection.

- b) Depreciation on property, plant and equipment (including Continuous Process Plants considered on technical evaluation) has been provided using straight line method over their useful lives and in the manner prescribed under Schedule II of the Companies Act, 2013. However, in respect of certain property, plant and equipment, depreciation is provided as per their useful lives as assessed by the management supported by technical advice ranging from 15 to 35 years for plant and machinery and 15 to 70 years for buildings. Accelerated depreciation in respect of a production accessory is provided over 6 years. Leasehold land is being amortized over the lease period.

The carrying amount is eliminated from the financial statements, upon sale and disposition of the assets and the resultant gains or losses are recognised in the statement of profit and loss.

(ii) Investment property:

Investment properties are measured at cost less accumulated depreciation and impairment losses, if any. Depreciation on Investment property has been provided using straight line method over their useful lives and in the manner prescribed under Schedule II of the Companies Act, 2013.

The carrying amount is eliminated from the financial statements, upon sale, disposition and withdrawal from permanent use of the assets and when no future economic benefits are expected from its disposal. The resultant gains or losses are recognised in the statement of profit and loss.

(iii) Intangible assets:

Intangible assets are recognised, if the future economic benefits attributable to the assets are expected to flow to the company and cost of the asset can be measured reliably. The same

Notes to financial statements

are amortised over the expected duration of benefits. Such intangible assets are measured at cost less any accumulated amortization and impairment losses, if any.

Revenue Expenditure on Research and Development is charged to Statement of Profit and Loss and Capital Expenditure is added to Property, plant and equipment.

Expenditure incurred on intangible asset which are under development is included under Intangible Assets under Development.

The carrying amount is eliminated from the financial statements, upon sale, disposition and withdrawal from permanent use of the assets and when no future economic benefits are expected from its disposal. The resultant gains or losses are recognised in the statement of profit and loss.

(iv) Lease:

Lease is classified as Operating Lease, when substantial risks and rewards of ownership are not transferred - rentals thereon are recognised as expense over the lease term.

Leases under which, the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalised at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability, so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss.

(v) Foreign currency transactions and translation:

The functional currency of the company is Indian rupee (₹). Foreign currency transactions are recorded at exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies as at the Balance Sheet date are translated at exchange rate prevailing at the year end. Exchange differences arising on actual payments / realisations and year end translations including on forward contracts are dealt with in Profit and Loss Statement except exchange differences arising on those Long term foreign currency monetary items, related to acquisition of depreciable capital assets being carried forward from previous GAAP, which are adjusted to cost of such assets till 2020 and depreciated over their balance life pursuant to the option in Notification No.G.S.R 914(E) dated 29th December, 2011 issued by Ministry of Corporate Affairs. Non Monetary Foreign Currency items are stated at cost.

(vi) Inventories:

Inventories are valued at lower of cost and net realisable value. The cost is computed on weighted average basis. Finished Goods and Process Stock include cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

(vii) Borrowing cost:

Borrowing Cost is charged to Statement of Profit and Loss except meant for acquisition of qualifying assets, which is capitalised, using the effective interest method till the date of commercial use.

(viii) Employee benefit:

Employee benefits include wages & salaries, provident fund, superannuation fund, employee state insurance scheme, gratuity fund and compensated absences, etc.

(a) Defined-contribution plans

Contributions to the employees' regional provident fund, superannuation fund, Employees' Pension Scheme and Employees' State Insurance are recognised as defined contribution plan and charged as expenses during the period in which the employees perform the services.

(b) Defined-benefit plans

Retirement benefits in the form of Gratuity and Leave Encashment are considered as defined benefit plan and determined on actuarial valuation using the Projected Unit Credit Method at the balance sheet date. Actuarial Gains or Losses through re-measurement of the net obligation of a defined benefit liability or asset is recognised in Other Comprehensive Income. Such re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

The Provident Fund Contribution other than contribution to Employees' Regional Provident Fund, is made to trust administered by the trustees. The interest rate to the members of the trust shall not be lower than the statutory rate declared by the Central Government under Employees' Provident Fund and Miscellaneous Provision Act, 1952. The Employer shall make good deficiency, if any.

(c) Short term employee benefits

Short term benefits are charged off at the undiscounted amount in the year in which the related service is rendered.

(ix) Income tax:

Income tax is comprised of current and deferred tax. Income tax expense is recognised in the Statement of Profit and Loss,

Notes to financial statements

except to the extent it relates to items directly recognised in equity or in other comprehensive income.

- (a) **Current tax:** Current Tax is the amount of tax payable on the estimated taxable income for the current year as per the provisions of Income Tax Act, 1961.
- (b) **Deferred tax liabilities** are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unabsorbed losses and unabsorbed depreciation to the extent that, it is probable that taxable income will be available against which the same can be realised.
- (c) **Minimum Alternate Tax:** Minimum Alternate Tax credit is recognized when there is convincing evidence that the Company will pay normal income tax during the specified period.

(x) Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

Contingent Liabilities and Assets:

Contingent liabilities are disclosed after evaluation of facts, uncertainties and possibility of reimbursement. Contingent liabilities are not recognised but are disclosed in notes.

Contingent assets are not recognised in financial statements but are disclosed, since the former treatment may result in the recognition of income that may or may not be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

(xi) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

Financial assets include cash and cash equivalents, trade and other receivables, investments in securities and other eligible current and non-current assets.

At initial recognition, all financial assets are measured at fair value. Such financial assets are subsequently classified under one of the following three categories according to the purpose for which they are held. The classification is reviewed at the end of each reporting period.

- **Financial assets at amortised cost:** At the date of initial recognition, are held to collect contractual cash flows of principal and interest on principal amount outstanding on specified dates. These financial assets are intended to be held until maturity. Therefore, they are subsequently measured at amortised cost by applying the Effective Interest Rate (EIR) method to the gross carrying amount of the financial asset. The EIR amortisation is included as interest income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.
- **Financial assets at fair value through other comprehensive income:** At the date of initial recognition, are held to collect contractual cash flows of principal and interest on principal amount outstanding on specified dates, as well as held for selling. Therefore, they are subsequently measured at each reporting date at fair value, with all fair value movements recognised in Other Comprehensive Income (OCI). Interest income calculated using the effective interest rate (EIR) method, impairment gain or loss and foreign exchange gain or loss are recognised in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in Other Comprehensive Income is reclassified from the OCI to Statement of Profit and Loss.
- **Financial assets at fair value through profit or loss:** At the date of initial recognition, financial assets are held for trading, or which are measured neither at Amortised Cost nor at Fair Value through OCI. Therefore, they are subsequently measured at each reporting date at fair value, with all fair value movements recognised in the Statement of Profit and Loss.

Investment in Equity shares of subsidiaries and associates are valued at cost.

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expires or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. Upon derecognition the difference between the carrying amount of a financial asset derecognised and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the Statement of Profit and Loss.

The company assesses impairment based on the expected credit losses (ECL) model to all its financial assets measured at amortised cost.

Notes to financial statements

(b) Financial liabilities

Financial liabilities include long-term and short-term loans and borrowings, trade and other payables and other eligible current and non-current liabilities.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and other payables, net of directly attributable transaction costs. After initial recognition, financial liabilities are classified under one of the following two categories:

- Financial liabilities at amortised cost: After initial recognition, such financial liabilities are subsequently measured at amortised cost by applying the Effective Interest Rate (EIR) method to the gross carrying amount of the financial liability. The EIR amortisation is included in finance expense in the profit or loss.
- Financial liabilities at fair value through profit or loss: which are designated as such on initial recognition, or which are held for trading. Fair value gains/ losses attributable to changes in own credit risk is recognised in OCI. These gains/ loss are not subsequently transferred to Statement of Profit and Loss. All other changes in fair value of such liabilities are recognised in the Statement of Profit and Loss.

The Company derecognises a financial liability when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability derecognised and the sum of consideration paid and payable is recognised in statement of profit and loss as other income or finance costs/ other expenses.

(xii) Derivative financial instruments:

Derivative instruments such as forward currency contracts, interest rate swaps and option contracts are used to hedge foreign currency risks and interest rate risk. Such derivatives are initially recognised at their fair values on the date on which a derivative contract is entered into and are subsequently re-measured at fair value on each reporting date. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

(xiii) Revenue:

Revenue is recognised when the significant risks and rewards of ownership have been passed on to buyer. Revenue is measured at the fair value of the consideration received or receivable, including Excise Duty (till 30th June, 2017 the period prior to GST implementation date) but net of returns, allowances, trade discounts, volume discounts, sales tax, VAT, GST etc.

Interest income

Interest income is recognized on time proportion basis using the effective interest method.

Dividend income

Dividend income is recognized when the right to receive payment is established, which becomes certain after shareholders approval.

(xiv) Grants:

Grants and subsidies from the Government are recognised when there is reasonable assurance that the grant / subsidy will be received and all attaching conditions will be complied with. Revenue Grants are recognised in the Statement of Profit and Loss. Capital Grants relating to specific assets are recognised in the balance sheet as deferred income and credited in statement of profit and loss on a systematic basis over the useful life of the related asset.

Export incentives are recognised in the Statement of Profit and Loss.

(xv) Impairment:

The carrying amount of Property, plant and equipments, Intangible assets and Investment property are reviewed at each Balance Sheet date to assess impairment if any, based on internal / external factors. An asset is treated as impaired, when the carrying cost of asset exceeds its recoverable value, being higher of value in use and net selling price. An impairment loss is recognised as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed, if there has been an improvement in recoverable amount.

(xvi) Earnings per share (EPS):

Basic earnings per share is calculated by dividing the profit or loss for the period attributable to the equity holders of the company by the weighted average number of ordinary shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(xvii) Cash and cash equivalents:

Cash and cash equivalents include cash on hand and at bank, Cheques on hand and Remittances in transit for the purpose of meeting short-term cash commitments.

NOTE - 51 FAIR VALUES

Set out below, is a comparison by class of the carrying amounts and fair value of the financial instruments of the companies:

Particulars	₹ in crores (10 Million)			
	As at 31.03.2018		As at 31.03.2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
(i) Financial Assets				
(a) At Fair Value through Profit and Loss				
- Investments	14.30	14.30	12.24	12.24
(b) At Amortised Cost				
- Investments	52.64	52.64	-	-
- Trade Receivables	1289.72	1289.72	1469.60	1469.60
- Others	392.40	392.40	573.44	573.44
Total	1749.06	1749.06	2055.28	2055.28
(ii) Financial Liabilities				
At Amortised Cost				
- Borrowings	3498.08	3498.08	3374.85	3374.85
- Trade Payables	961.39	961.39	910.96	910.96
- Others	560.07	560.07	591.75	591.75
Total	5019.54	5019.54	4877.56	4877.56

The following methods and assumptions were used to estimate the fair values:

- Cash and short-term deposits, trade receivables, loans, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- Other non-current receivables are evaluated by the Company, based on parameters such as interest rates, individual creditworthiness of the counterparty etc. Based on this evaluation, allowances are considered to account for the expected losses of these receivables. As at end of each reporting year, the carrying amounts of such receivables, net of allowances (if any), are not materially different from their calculated fair values.
- Fair value of Investments in quoted mutual funds and equity shares are based on quoted market price at the reporting date. The fair value of unquoted Investments in preference shares are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The fair value of unquoted Investments in equity shares are estimated on net assets basis.
- Fair value of borrowings from banks and other non-current financial liabilities, are estimated by discounting future cash flows using rates currently available for debt on similar terms and remaining maturities.
- The fair values of derivatives are calculated using the RBI reference rate as on the reporting date as well as other variable parameters.

Notes to financial statements

Fair Value Hierarchy

All financial assets and liabilities for which fair value is measured in the financial statements are categorised within the fair value hierarchy, described as follows:

Level 1 - Quoted prices in active markets.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.

Level 3 - Inputs that are not based on observable market data.

The following table presents the fair value measurement hierarchy of financial assets and liabilities, which have been measured, subsequent to initial recognition, at fair value as at 31st March, 2018 and 31st March 2017:

	₹ in crores (10 Million)		
Particulars	Level 1	Level 2	Level 3
31st March, 2018			
Financial Assets			
- Quoted Equity Shares	4.16	-	-
- Unquoted Equity Shares	-	-	0.28
- Unquoted Preference Shares	-	-	9.26
- Mutual Funds	0.60	-	-
- Forward Contracts	-	1.10	-
31st March, 2017			
Financial Assets			
- Quoted Equity Shares	3.29	-	-
- Unquoted Equity Shares	-	-	0.10
- Unquoted Preference Shares	-	-	8.34
- Mutual Funds	0.51	-	-
Financial Liabilities			
- Forward Contracts	-	2.75	-

There has been no transfer among levels 1, 2 and 3 during the year ended 31st March, 2018.

NOTE - 52

The fair value of Investment property as at 31st March, 2018 is ₹12.41 crores (Previous year: ₹12.41 crores) after considering the rental income from current leases and other assumptions that market participants would use while pricing investment property under current market conditions.

NOTE - 53 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES:

The Company's activities are exposed to a variety of financial risks from its operations. The key financial risks include market risk (including foreign currency risk, interest rate risk and commodity price risk), credit risk and liquidity risk.

✱ **Market Risk:** Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises mainly three types of risk: interest rate risk, currency risk and other price risk such as commodity price risk.

- **Foreign Currency Risk:** Foreign Currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company has obtained foreign currency borrowings and has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk.

After taking cognisance of the natural hedge, the Company takes appropriate hedges to mitigate its risk resulting from fluctuations in foreign currency exchange rate(s).

Notes to financial statements

Foreign Currency Sensitivity: The following table demonstrates the sensitivity to a reasonably possible change in USD with all other variables held constant. The impact on company's profit before tax is due to changes in the foreign exchange rate is as follows:

Particulars	₹ in crores (10 Million)	
	As at 31.03.2018	As at 31.03.2017
Change in USD	+ ₹0.25	+ ₹0.25
Effect on Profit before Tax	(7.68)	(3.26)
Change in USD	- ₹0.25	- ₹0.25
Effect on Profit before Tax	7.68	3.26

- **Interest Rate Risk:** Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Any changes in the interest rates environment may impact future rates of borrowing. The Company mitigates this risk by regularly assessing the market scenario, finding appropriate financial instruments, interest rate negotiations with the lenders for ensuring the cost effective method of financing.

Interest Rate Sensitivity: The following table demonstrates the sensitivity to a reasonably possible change in interest rates on financial assets affected. With all other variables held constant, the company's profit before tax is affected through the impact on finance cost with respect to our borrowing, as follows:

Particulars	₹ in crores (10 Million)	
	As at 31.03.2018	As at 31.03.2017
Change in Basis Points	+ 25	+ 25
Effect on Profit before Tax	(8.75)	(8.38)
Change in Basis Points	- 25	- 25
Effect on Profit before Tax	8.75	8.38

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

- **Commodity Price Risk:** The Company is affected by the price volatility of certain commodities. Its operating activities require the purchase of raw material and manufacturing of tyres, and therefore, requires a continuous supply of certain raw materials such as natural rubber, synthetic rubber, carbon black, fabric, beadwire rubber chemicals etc. To mitigate the commodity price risk, the Company has an approved supplier base to get best competitive prices for the commodities and to assess the market to manage the cost without any compromise on quality.
- ⚡ **Credit Risk:** Credit risk is the risk that counterparty might not honor its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables).
- **Trade Receivables:** Customer credit risk is managed based on company's established policy, procedures and controls. The company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Credit risk is reduced by receiving pre-payments and export letter of credit to the extent possible. The Company has a well defined sales policy to minimize its risk of credit defaults. Outstanding customer receivables are regularly monitored and assessed. Impairment analysis is performed based on historical data at each reporting date on an individual basis. However a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively.

Notes to financial statements

- **Deposits with Bank:** The deposits with banks constitute mostly the liquid investment of the company and are generally not exposed to credit risk.
- ✱ **Liquidity Risk:** Liquidity risk is the risk, where the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The company's approach is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due.

The table below summarises the maturity profile of company's financial liabilities based on contractual undiscounted payments:

Particulars	₹ in crores (10 Million)	
	Upto 5 years	> 5 years
As at 31st March 2018

Other Financial Liabilities	290.79	300.96
Total	4088.56	789.00

* Including working capital facility from consortium banks renewed every year.

NOTE - 54 CAPITAL MANAGEMENT

The Company's policy is to maintain an adequate capital base so as to maintain creditor and market confidence and to sustain future development. Capital includes issued capital, share premium and all other equity reserves attributable to equity holders. In order to strengthen the capital base, the company may use appropriate means to enhance or reduce capital, as the case may be.

The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net Debt is calculated as borrowings less cash and cash equivalents.

Particulars	₹ in crores (10 Million)	
	As at 31.03.2018	As at 31.03.2017

Total Capital	1644.29	1673.95
Capital and Net Debt	5082.57	4993.09
Gearing Ratio	67.65%	66.47%

NOTE - 55 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Ind AS 115, 'Revenue from Contracts with Customers' and relevant changes in other Accounting Standards as per notification issued by the Ministry of Corporate Affairs in 28th March, 2018 has been made applicable from Financial Year 2018-19 (i.e. 1st April, 2018 onwards) and will supersede Ind AS 18 and Ind AS 11. The Standard establishes a new five-step model that will apply to revenue arising from contracts with customers. Under Ind AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The Company has evaluated the requirements of Ind AS 115 and there is no material impact on revenue recognition method of the Company.

Notes to financial statements

We have audited the accompanying Consolidated financial statements of JK Tyre & Industries Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates, comprising of the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity, the Consolidated Cash Flow statement for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated cash flows and Consolidated changes in equity of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules made thereunder.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the

audit to obtain reasonable assurance about whether the Consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the Consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements gives the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated financial position of the Group and its associates as at March 31, 2018, and its Consolidated financial performance (including other comprehensive income), the Consolidated change in equity and its Consolidated cash flows for the year ended on that date.

Annexure A to the Independent Auditor's Report

of even date on the Consolidated financial statements of JK Tyre & Industries Limited.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated financial statements of the company as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of JK Tyre & Industries Limited ("the Holding Company") and its subsidiary companies and its associate company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies and its associate company which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper

management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies and its associate company, which are incorporated in India have maintained, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal

Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to two subsidiaries and an associate company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies.

NOTE – 1 GROUP OVERVIEW, BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

1.1 The Group overview:

The Group, JK Tyre & Industries Limited (JKTIL) and its subsidiaries, majorly develops, manufactures, markets and distributes automotive Tyres, Tubes, Flaps and Retreads. The Group markets its tyres for sale to vehicle manufacturers for fitment as original equipment and for sale in replacement markets worldwide. The Group has manufacturing plants located in India and Mexico with worldwide distribution.

These Consolidated financial statements were approved and adopted by board of directors of the Company in their meeting held on 17th May, 2018.

1.2 Statement of compliance:

The Consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015, as amended time to time and other relevant provisions of the Companies Act, 2013.

1.3 Basis of preparation of Consolidated financial statements:

a) The Consolidated Financial Statements comprise of the financial statements of JK Tyre & Industries Limited (Parent Company) and the following as on 31.03.2018:

- i) **Subsidiaries:** The Control in subsidiary is gained when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Company has less than a majority of the voting or similar rights, it considers all relevant facts and circumstances in assessing the control including the contractual arrangements, potential voting rights, right to direct relevant activities of entity.

Hari Shankar Singhania Elastomer and Tyre Research Institute being an approved Scientific and Research Institute cannot be consolidated, as the equity of the said Institute is not available for distribution to its members.

- b) The Financial Statements of the parent company and its subsidiaries have been consolidated on a line by line basis by adding together the book value of like items of assets, liabilities, income and expenses, after eliminating Intra-group balances, Intra-group transactions and unrealised profits or losses in accordance with Ind AS 110 – “Consolidated Financial Statements”. The deferred tax to be recognised for temporary differences arises from elimination of profits and losses resulting from intra group transactions.

Notes to consolidated financial statements

- c) Non-controlling Interest represents the equity in a subsidiary not attributable, directly or indirectly to a Parent. Non-controlling interest in the net assets of the subsidiaries being consolidated is identified and presented in the consolidated Balance Sheet separately from the equity attributable to the Parent's shareholders and liabilities. Profit or loss and each component of other comprehensive income are attributed to Parent and to the non-controlling interest. Impact of any insignificant and immaterial Non-controlling Interest is not considered.
- d) In case of associates, where Company holds directly or indirectly through subsidiaries 20% or more equity or / and exercises significant influence, Investments are accounted for by using equity method in accordance with Ind AS 28 – "Investments in Associates and Joint Ventures".
- e) Post-acquisition, the Company accounts for its share in the change in net assets of the associates (after eliminating unrealised profits and losses resulting from transactions between the Company and its associates to the extent of its share), through its statement of profit and loss, other comprehensive income and through its reserves for the balance.
- f) The difference between the cost of investment and the share of net assets at the time of acquisition of shares in the subsidiaries and associates is identified in the financial statements as Goodwill or Capital Reserve as the case may be. However, for associates, Goodwill is not separately recognised but included in the value of investments.
- g) The accounts of J. K. International Ltd. and Western Tire Holdings, Inc. are exempt from Audit.
- h) The Accounting Policies of the parent company, its subsidiaries and associates are largely similar. However, few accounting policies are different as certain subsidiaries / associates located in different countries have to comply with the local regulatory requirements.
- i) In case of foreign subsidiaries, revenue items are consolidated at the average exchange rate during the year. All assets and liabilities are translated at year end exchange rate. The resulting exchange differences are recognised as Other Comprehensive Income / (Loss) and disclosed accordingly.
- j) Significant Accounting Policies and Notes accompanying to the financial statements of the company and its subsidiaries are set out in their respective Financial Statements.

1.4 Significant accounting policies:

The significant accounting policies to prepare consolidated financial statements are in uniformity with the standalone financial statements of the Company. Following are the additional policies specifically considered for preparation of consolidated financial statements:

a) Business Combination:

Business Combinations are accounted for using the acquisition method. The cost of acquisition is measured at the aggregate of the fair values at the date of exchange of assets given, liabilities incurred or assumed and equity instruments issued by the Company in exchange for control of the acquiree. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the recognition criteria are stated at their fair values at the acquisition date except certain assets and liabilities required to be measured as per the applicable standard.

The interest of non-controlling shareholders in the acquiree is initially measured at the non-controlling shareholders' proportionate share of the acquiree's identifiable net assets.

b) Deferred Tax:

The Company does not recognize deferred tax liability with respect to undistributed retained earnings of subsidiaries and associate and foreign currency translation difference, comprised in Other Comprehensive Income, recognised on consolidation of foreign subsidiaries and associates as the Company controls the timing of distribution of profits and it is probable that the subsidiaries will not distribute the profits in the foreseeable future.

NOTE - 44 OPERATING SEGMENTS

a. Basis for segmentation

An operating segment is component of the Company that engages in the business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. All operating segments' results are reviewed by the Company's chief operating decision maker to make decisions about resources to be allocated to the segment and assess their performance.

The Company has reportable segments based on geographical location (India, Mexico and Others), which are the Group's strategic business units. These business units are engaged in developing, manufacturing, marketing and distribution of automotive Tyre, Tubes, Flaps, etc. For each of the business units, the Company's chief operating decision maker reviews internal management reports at least on quarterly basis.

NOTE - 46 FAIR VALUES

Set out below, is a comparison by class of the carrying amounts and fair value of the financial instruments of the companies:

Particulars	₹ in crores (10 Million)			
	As at 31.03.2018		As at 31.03.2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
(i) Financial Assets				
(a) At Fair Value through Profit and Loss				
- Investments	14.30	14.30	12.24	12.24
(b) At Amortised Cost				
- Investments	52.64	52.64	-	-
- Trade Receivables	1545.32	1545.32	1794.64	1794.64
- Others	478.93	478.93	807.41	807.41
Total	2091.19	2091.19	2614.29	2614.29
(ii) Financial Liabilities				
At Amortised Cost				
- Borrowings	5811.28	5811.28	5654.65	5654.65
- Trade Payables	1165.38	1165.38	1213.74	1213.74
- Others	709.02	709.02	689.91	689.91
Total	7685.68	7685.68	7558.30	7558.30

The following methods and assumptions were used to estimate the fair values:

- Cash and short-term deposits, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- Other non-current receivables are evaluated by the Company, based on parameters such as interest rates, individual creditworthiness of the counterparty etc. Based on this evaluation, allowances are taken to account for the expected losses of these receivables. As at end of each reporting year, the carrying amounts of such receivables, net of allowances (if any), are not materially different from their calculated fair values.
- Fair value of Investments in quoted mutual funds and equity shares are based on quoted market price at the reporting date. The fair value of unquoted Investments in preference shares are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The fair value of unquoted Investments in equity shares are estimated on net assets basis.
- Fair value of borrowings from banks and other non-current financial liabilities, are estimated by discounting future cash flows using rates currently available for debt on similar terms and remaining maturities.
- The fair values of derivatives are calculated using the RBI reference rate as on the reporting date as well as other variable parameters.

Fair Value Hierarchy

All financial assets and liabilities for which fair value is measured in the financial statements are categorised within the fair value hierarchy, described as follows:

Level 1 - Quoted prices in active markets.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.

Level 3 - Inputs that are not based on observable market data.

Notes to consolidated financial statements

The following table presents the fair value measurement hierarchy of financial assets and liabilities, which have been measured subsequent to initial recognition at fair value as at 31st March, 2018 and 31st March 2017:

Particulars	₹ in crores (10 Million)		
	Level 1	Level 2	Level 3
31st March, 2018			
Financial Assets			
- Quoted Equity Shares	4.16	-	-
- Unquoted Equity Shares	-	-	0.28
- Unquoted Preference Shares	-	-	9.26
- Mutual Funds	0.60	-	-
- Option Contracts	-	16.57	-
- Forward Contracts	-	1.10	-
31st March, 2017			
Financial Assets			
- Quoted Equity Shares	3.29	-	-
- Unquoted Equity Shares	-	-	0.10
- Unquoted Preference Shares	-	-	8.34
- Mutual Funds	0.51	-	-
- Option Contracts	-	0.32	-
Financial Liabilities			
- Forward Contracts	-	2.75	-

There has been no transfer among levels 1, 2 and 3 during the year ended 31st March, 2018.

NOTE - 47

The fair value of Investment property as at 31st March, 2018 is ₹12.41 crores (as at 31st March, 2017: ₹12.41 crores) after considering the rental income from current leases and other assumptions that market participants would use when pricing investment property under current market conditions.

NOTE - 48 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's activities are exposed to a variety of financial risks from its operations. The key financial risks include market risk (including foreign currency risk, interest rate risk and commodity price risk), credit risk and liquidity risk.

- ✱ **Market Risk:** Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises mainly three types of risk: interest rate risk, currency risk and other price risk such as commodity price risk.
 - **Foreign Currency Risk:** Foreign Currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The company has obtained foreign currency borrowings and has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk.

After taking cognisance the natural hedge, the company takes appropriate hedges to mitigate its risk resulting from fluctuations in foreign currency exchange rate(s).

Notes to consolidated financial statements

Foreign Currency Sensitivity: The following table demonstrates the sensitivity to a reasonably possible change in USD with all other variables held constant. The impact on company's profit before tax due to changes in the foreign exchange rate is as follows:

Particulars	₹ in crores (10 Million)	
	As at 31.03.2018	As at 31.03.2017
Change in USD	+ ₹0.25	+ ₹0.25
Effect on Profit before Tax	(9.31)	(6.07)
Change in USD	- ₹0.25	- ₹0.25
Effect on Profit before Tax	9.31	6.07

- **Interest Rate Risk:** Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Any changes in the interest rates environment may impact future rates of borrowing. The Company mitigates this risk by regularly assessing the market scenario, finding appropriate financial instruments, interest rate negotiations with the lenders for ensuring the cost effective method of financing.

Interest Rate Sensitivity: The following table demonstrates the sensitivity to a reasonable possible change in interest rates on financial assets affected. With all other variables held constant, the company's profit before tax is affected through the impact on finance cost with respect to our borrowing, as follows:

Particulars	₹ in crores (10 Million)	
	As at 31.03.2018	As at 31.03.2017
Change in Basis Points	+ 25	+ 25
Effect on Profit before Tax	(14.53)	(14.08)
Change in Basis Points	- 25	- 25
Effect on Profit before Tax	14.53	14.08

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

- **Commodity Price Risk:** The Company is affected by the price volatility of certain commodities. Its operating activities require the purchase of raw material and manufacturing of tyres and therefore require a continuous supply of certain raw materials such as natural rubber, synthetic rubber, carbon black, fabric, beadwire rubber chemicals etc. To mitigate the commodity price risk, the Company has an approved supplier base to get best competitive prices for the commodities and to assess the market to manage the cost without any compromise on quality.
- ✱ **Credit Risk:** Credit risk is the risk that counterparty might not honor its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables).
- **Trade Receivables:** Customer credit risk is managed based on company's established policy, procedures and controls. The company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Credit risk is reduced by receiving pre-payments and export letter of credit to the extent possible. The Company has a well defined sales policy to minimize its risk of credit defaults. Outstanding customer receivables are regularly monitored and assessed. Impairment analysis is performed based on historical data at each reporting date on an individual basis. However a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively.

- **Deposits with Bank:** The deposits with banks constitute mostly the liquid investment of the company and are generally not exposed to credit risk.

Notes to consolidated financial statements

- ✱ **Liquidity Risk:** Liquidity risk is the risk where the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The company's approach is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due.

The table below summarises the maturity profile of company's financial liabilities based on contractual undiscounted payments:

NOTE - 49 CAPITAL MANAGEMENT

The Company's policy is to maintain an adequate capital base so as to maintain creditor and market confidence and to sustain future development. Capital includes issued capital, share premium and all other equity reserves attributable to equity holders. In order to strengthen the capital base, the company may use appropriate means to enhance or reduce capital, as the case may be.

The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net Debt is calculated as borrowings less cash and cash equivalents.

NOTE - 54 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Ind AS 115, 'Revenue from Contracts with Customers' and relevant changes in other Accounting Standards as per notification issued by the Ministry of Corporate Affairs in 28th March, 2018 has been made applicable from Financial Year 2018-19 (i.e. 1st April, 2018 onwards) and will supersede Ind AS 18 and Ind AS 11. The Standard establishes a new five-step model that will apply to revenue arising from contracts with customers. Under Ind AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The Company has evaluated the requirements of Ind AS 115 and there is no material impact on revenue recognition method of the Company.
